# DIN EN ISO 15156-2:2010-12 (E)

## Petroleum and natural gas industri es - Materials for use in H<(Index)2>S-containing environments in oil and gas production - Part 2: Cracking-resistant carbon and low alloy steels, and the use of cast irons (ISO 15156-2:2009)

## Contents

Page

Foreword ....3

Introduction ....4

1 Scope ....5

2 Normative references ....6

3 Terms and definitions ....7

4 Symbols and abbreviated terms ....10

5 Purchasing information ....11

6 Factors affecting the behaviour of carbon and low alloy steels in H2S-containing environments ....11

7 Qualification and selection of carbon and low-alloy steels with resistance to SSC, SOHIC and SZC ....12

8 Evaluation of carbon and low alloy steels for their resistance to HIC/SWC ....21

9 Marking, labelling and documentation ....21

Annex A (normative) SSC-resistant carbon and low alloy steels (and requirements and recommendations for the use of cast irons) ....22

Annex B (normative) Qualification of carbon and low-alloy steels for H2S service by laboratory testing ....31

Annex C (informative) Determination of H2S partial pressure ....39

Annex D (informative) Recommendations for determining pH ....41

Annex E (informative) Information that should be supplied for material purchasing ....46

Bibliography ....48
