

# ISO 10423:2009-12 (E)

## Petroleum and natural gas industries - Drilling and production equipment - Wellhead and christmas tree equipment

---

<b>Contents</b>		<b>Page</b>
Foreword .....		vi
Introduction .....		vii
<b>1</b>	<b>Scope .....</b>	<b>1</b>
1.1	Purpose .....	1
1.2	Applicability .....	1
1.3	Service conditions .....	2
1.4	Product specification levels .....	3
<b>2</b>	<b>Normative references .....</b>	<b>6</b>
<b>3</b>	<b>Terms, definitions and abbreviated terms .....</b>	<b>8</b>
3.1	Terms and definitions .....	8
3.2	Abbreviated terms .....	21
<b>4</b>	<b>Design and performance -- General requirements .....</b>	<b>21</b>
4.1	Performance requirements -- General .....	21
4.2	Service conditions .....	22
4.3	Design methods .....	25
4.4	Miscellaneous design information .....	29
4.5	Design documentation .....	30
4.6	Design review .....	30
4.7	Design validation .....	30
<b>5</b>	<b>Materials -- General requirements .....</b>	<b>30</b>
5.1	General .....	30
5.2	Written specifications .....	31
5.3	Mandrel tubing hangers and casing hangers .....	31
5.4	Bodies, bonnets and end and outlet connections .....	35
5.5	Ring gaskets .....	42
5.6	Test coupons .....	43
5.7	Qualification test coupons .....	48
5.8	Heat-treating equipment qualification .....	50
5.9	Material qualification .....	50
5.10	Pressure-boundary penetrations .....	50
5.11	Wear bushings .....	51
5.12	Clamp hub-end connectors .....	51
<b>6</b>	<b>Welding -- General requirements .....</b>	<b>51</b>
6.1	General .....	51
6.2	Non-pressure-containing weldments other than weld overlays -- PSL 1 to PSL 3 .....	51
6.3	Pressure-containing fabrication weldments for bodies, bonnets, end and outlet connections, bullplugs, valve-removal plugs and back-pressure valves .....	51
6.4	Pressure-containing repair weldments for bodies, bonnets, end and outlet connections, bullplugs, valve-removal plugs and back-pressure valves .....	57
6.5	Weld overlay for corrosion resistance and/or hard facing and other material surface property controls .....	59
<b>7</b>	<b>Quality control .....</b>	<b>63</b>
7.1	General .....	63

7.2	Measuring and testing equipment .....	63
7.3	Quality-control personnel qualifications .....	63
7.4	Quality control requirements .....	64
7.5	Quality control records requirements .....	104
8	Equipment marking .....	109
8.1	Marking requirements .....	109
8.2	Wellhead equipment .....	111
8.3	Connectors and fittings .....	111
8.4	Casing and tubing hangers .....	111
8.5	Valves and chokes .....	112
8.6	Loose connectors [flanged, threaded, other end connectors (OEC) and welded] .....	113
8.7	Other equipment .....	113
8.8	Studs and nuts .....	114
8.9	Christmas trees .....	114
8.10	Valve-removal plugs .....	115
8.11	Bullplugs .....	115
8.12	Back-pressure valves .....	115
9	Storing and shipping .....	115
9.1	Draining after testing .....	115
9.2	Rust prevention .....	115
9.3	Sealing-surface protection .....	115
9.4	Assembly and maintenance instructions .....	115
9.5	Ring gaskets .....	115
9.6	Age control of non-metallic materials .....	115
10	Equipment-specific requirements .....	116
10.1	Flanged end and outlet connections .....	116
10.2	Threaded end and outlet connections .....	152
10.3	Studs and nuts .....	158
10.4	Ring gaskets .....	160
10.5	Valves .....	168
10.6	Casing and tubing heads .....	181
10.7	Casing and tubing hangers .....	186
10.8	Tubing-head adapters .....	192
10.9	Chokes .....	194
10.10	Tees and crosses .....	197
10.11	Test and gauge connections for 103,5 MPa and 138,0 MPa (15 000 psi and 20 000 psi) equipment .....	202
10.12	Fluid sampling devices .....	204
10.13	Christmas trees .....	205
10.14	Cross-over connectors .....	205
10.15	Adapter and spacer spools .....	210
10.16	Actuators .....	211
10.17	Packing mechanisms for lock screws, alignment pins and retainer screws .....	216
10.18	Other end connectors .....	217
10.19	Top connectors .....	218
10.20	Surface and underwater safety valves and actuators .....	219
10.21	Bullplugs .....	225
10.22	Valve-removal plugs .....	228
10.23	Other pressure-boundary penetrations .....	229
10.24	Back-pressure valves .....	229
11	Repair and remanufacture .....	230
Annex A (informative) Purchasing guidelines .....		231
Annex B (informative) USC unit tables and data for this International Standard .....		250
Annex C (informative) Method of calculating stud bolt lengths for type 6B and 6BX flanges .....		308
Annex D (informative) Recommended flange bolt torque .....		310

<b>Annex E (informative) Recommended weld preparation design dimensions .....</b>	<b>314</b>
<b>Annex F (informative) Design validation procedures .....</b>	<b>318</b>
<b>Annex G (informative) Design and rating of equipment for use at elevated temperatures .....</b>	<b>353</b>
<b>Annex H (normative) Design and manufacture of surface wellhead running, retrieving and testing tools, clean-out tools and wear bushings .....</b>	<b>357</b>
<b>Annex I (normative) Design validation procedures for surface safety valves and underwater safety valves .....</b>	<b>361</b>
<b>Annex J (normative) Repair and remanufacture requirements .....</b>	<b>369</b>
<b>Annex K (informative) Recommended specifications for top connectors for christmas trees .....</b>	<b>383</b>
<b>Annex L (normative) Specifications for valve-removal preparations, valve-removal plugs and handling tools .....</b>	<b>397</b>
<b>Annex M (informative) Qualification of heat-treating equipment .....</b>	<b>417</b>
<b>Annex N (informative) List of tables and list of figures .....</b>	<b>420</b>
<b>Bibliography .....</b>	<b>430</b>
