DU Y

Foreword .....	3
Introduction.....	4
1 Scope .....	5
2 Conformance .....	5
2.1 Dual citing of normative references .....	5
2.2 Units of measurement.....	5
3 Normative references .....	5
4 Terms and definitions .....	6
5 Thread compound characteristics.....	7
5.1 Product characteristics.....	7
5.2 Physical and chemical characteristics.....	8
6 Thread compound performance properties .....	12
6.1 Small-scale test .....	12
6.2 Frictional properties.....	13
6.3 Extreme surface contact pressure (gall resistance) properties for casing, tubing and line pipe .....	13
6.4 Fluid sealing properties for casing, tubing and line pipe .....	14
7 Quality assurance and control.....	14
8 Marking requirements.....	15
8.1 Marking.....	15
8.2 Labelling.....	15
Annex A (informative) API modified thread compound .....	16
Annex B (normative) Casing, tubing and line pipe reference standard formulation.....	20
Annex C (normative) Penetration test .....	22
Annex D (normative) Evaporation test .....	23
Annex E (normative) Oil separation test .....	24
Annex F (normative) Application/adherence test.....	25
Annex G (normative) Gas evolution test .....	26
Annex H (normative) Water leaching test.....	30
Annex I (informative) Frictional properties test .....	33
Annex J (informative) Extreme surface contact pressure (galling) test for casing, tubing and line pipe .....	43
Annex K (informative) Fluid sealing test for casing, tubing and line pipe.....	44
Annex L (informative) Corrosion inhibition tests .....	47
Annex M (informative) Compound high-temperature stability test .....	48
Bibliography.....	49
