ISO 17945:2015-04 (E)

Petroleum, petrochemical and natural gas industries - Metallic materials resistant to sulfide stress cracking in corro sive petroleum refining environments

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols and abbreviated terms 3

5 Responsibilities 3
5.1 Responsibilities of the end user 3
5.2 Responsibility of the manufacturer 4

6 Factors contributing to SSC 4
6.1 General parameters affecting SSC 4
6.2 Effect of material condition and stress level on susceptibility to SSC 4
6.3 Effect of hydrogen permeation flux on SSC 5
6.4 Effect of elevated temperature exposure on SSC 5
6.5 Factors affecting time to failure due to SSC 6
6.6 Bases for establishing whether equipment falls within the scope of this International Standard 6

7 Materials included in this International Standard 6

8 Hardness requirements 7

9 Procedure for the addition of new materials or processes 8
9.1 General balloting requirements 8
9.2 Field experience data requirements 8
9.3 Laboratory test data requirements 8

10 New restrictions and deleted materials 8

11 Qualification of unlisted alloys, conditions, and/or processes for specific applications 9

12 Standard road map 9

13 Ferrous materials 11
13.1 Carbon and alloy steels 11
13.1.1 Requirements for all carbon and alloy steels 11
13.1.2 Requirements for carbon steels listed as P-No. 1 Group 1 or 2 in Section IX of the ASME BPVC 11
13.1.3 Requirements for other carbon steels 11
13.1.4 Requirements for alloy steels listed with P-numbers in Section IX of the ASME BPVC 12
13.1.5 Requirements for other alloy steels 12
13.1.6 Requirements for cold-formed carbon and alloy steels 12
13.1.7 Welding requirements for carbon steels listed as P-No. 1 in Section IX of the ASME BPVC 12

13.1.8 Welding requirements for alloy steels listed as P-No. 3, 4, or 5A in Section IX of the ASME BPVC 13
13.1.9 Corrosion resistant weld overlays, hard facing weld overlays, cladding, and thermal spray coatings on carbon steels and alloy steels 13
13.2 Cast iron and ductile iron 13
13.3 Ferritic stainless steels 14
13.4 Martensitic stainless steels 14
13.4.1 Conventional martensitic stainless steels 14
13.4.2 Low-carbon martensitic stainless steels 14
13.4.3 Welding and overlays on martensitic stainless steels 15
13.5 Austenitic stainless steels 15

13.6 Specific austenitic stainless steel grades 16
13.7 Highly alloyed austenitic stainless steels 16
13.8 Duplex stainless steels 16
13.8.1 General requirements for duplex stainless steels 16
13.8.2 Welding requirements for duplex stainless steels 17
13.9 Precipitation-hardenable stainless steels 17
13.9.1 Austenitic precipitation-hardenable stainless steel 17
13.9.2 Martensitic precipitation-hardenable stainless steels 17
13.9.3 Welding requirements for precipitation-hardenable stainless steels 18

14 Nonferrous materials 19
14.1 Nickel alloys 19
14.1.1 Solid-solution nickel alloys 19
14.1.2 Precipitation-hardenable nickel alloys 20
14.2 Cobalt-Nickel-chromium-molybdenum alloys 20
14.3 Cobalt-nickel-chromium-tungsten alloys 21
14.4 Titanium alloys 21
14.5 Aluminium alloys 22
14.6 Copper alloys 22

15 Fabrication requirements 22
15.1 General fabrication requirements 22
15.2 Corrosion resistant overlays, hard facing overlays, and cladding 22
15.3 Welding 22
15.4 Cladding on carbon steels, alloy steels, and martensitic stainless steels 23
15.5 Identification stamping 23
15.6 Threading 24
15.6.1 Machine-cut threads 24
15.6.2 Cold-formed (rolled) threads 24
15.7 Cold-deformation processes 24

16 Bolting 24
16.1 General bolting requirements 24
16.2 Exposed bolting 24
16.3 Nonexposed bolting 25

17 Plating, coatings, and diffusion processes 25

18 Special components 25
18.1 General requirements for special components 25
18.2 Bearings 25
18.3 Springs 26
18.4 Instrumentation and control devices 26
18.4.1 General requirements for instrumentation and control devices 26
18.4.2 Diaphragms, pressure-measuring devices, and pressure seals 26
18.5 Seal rings and gaskets 26
18.6 Snap Rings 27
18.7 Special process parts 27

19 Valves 27

20 Compressors and pumps 27

Annex A (informative) Sulfide species plot 29

Annex B (informative) Background information on hardness testing and requirements 30

Annex C (normative) Welding procedure qualification hardness survey layouts 34

Bibliography 43
