## Petroleum, petrochemical and natural gas industries - Metallic materials resistant to sulfide stress cracking in corrosive petroleum refining environments

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Symbols and abbreviated terms .....	3
5	Responsibilities .....	3
5.1	Responsibilities of the end user .....	3
5.2	Responsibility of the manufacturer .....	4
6	Factors contributing to SSC .....	4
6.1	General parameters affecting SSC .....	4
6.2	Effect of material condition and stress level on susceptibility to SSC .....	4
6.3	Effect of hydrogen permeation flux on SSC .....	5
6.4	Effect of elevated temperature exposure on SSC .....	5
6.5	Factors affecting time to failure due to SSC .....	6
6.6	Bases for establishing whether equipment falls within the scope of this International Standard .....	6
7	Materials included in this International Standard .....	6
8	Hardness requirements .....	7
9	Procedure for the addition of new materials or processes .....	8
9.1	General balloting requirements .....	8
9.2	Field experience data requirements .....	8
9.3	Laboratory test data requirements .....	8
10	New restrictions and deleted materials .....	8
11	Qualification of unlisted alloys, conditions, and/or processes for specific applications .....	9
12	Standard road map .....	9
13	Ferrous materials .....	11
13.1	Carbon and alloy steels .....	11
13.1.1	Requirements for all carbon and alloy steels .....	11
13.1.2	Requirements for carbon steels listed as P-No. 1 Group 1 or 2 in Section IX of the ASME BPVC .....	11
13.1.3	Requirements for other carbon steels .....	11
13.1.4	Requirements for alloy steels listed with P-numbers in Section IX of the ASME BPVC .....	12
13.1.5	Requirements for other alloy steels .....	12
13.1.6	Requirements for cold-formed carbon and alloy steels .....	12
13.1.7	Welding requirements for carbon steels listed as P-No. 1 in Section IX of the ASME BPVC .....	12

13.1.8	Welding requirements for alloy steels listed as P-No. 3, 4, or 5A in Section IX of the ASME BPVC .....	13
13.1.9	Corrosion resistant weld overlays, hard facing weld overlays, cladding, and thermal spray coatings on carbon steels and alloy steels .....	13
13.2	Cast iron and ductile iron .....	13
13.3	Ferritic stainless steels .....	14
13.4	Martensitic stainless steels .....	14
13.4.1	Conventional martensitic stainless steels .....	14
13.4.2	Low-carbon martensitic stainless steels .....	14
13.4.3	Welding and overlays on martensitic stainless steels .....	15
13.5	Austenitic stainless steels .....	15
13.6	Specific austenitic stainless steel grades .....	16
13.7	Highly alloyed austenitic stainless steels .....	16
13.8	Duplex stainless steels .....	16
13.8.1	General requirements for duplex stainless steels .....	16
13.8.2	Welding requirements for duplex stainless steels .....	17
13.9	Precipitation-hardenable stainless steels .....	17
13.9.1	Austenitic precipitation-hardenable stainless steel .....	17
13.9.2	Martensitic precipitation-hardenable stainless steels .....	17
13.9.3	Welding requirements for precipitation-hardenable stainless steels .....	18
14	Nonferrous materials .....	19
14.1	Nickel alloys .....	19
14.1.1	Solid-solution nickel alloys .....	19
14.1.2	Precipitation-hardenable nickel alloys .....	20
14.2	Cobalt-Nickel-chromium-molybdenum alloys .....	20
14.3	Cobalt-nickel-chromium-tungsten alloys .....	21
14.4	Titanium alloys .....	21
14.5	Aluminium alloys .....	22
14.6	Copper alloys .....	22
15	Fabrication requirements .....	22
15.1	General fabrication requirements .....	22
15.2	Corrosion resistant overlays, hard facing overlays, and cladding .....	22
15.3	Welding .....	22
15.4	Cladding on carbon steels, alloy steels, and martensitic stainless steels .....	23
15.5	Identification stamping .....	23
15.6	Threading .....	24
15.6.1	Machine-cut threads .....	24
15.6.2	Cold-formed (rolled) threads .....	24
15.7	Cold-deformation processes .....	24
16	Bolting .....	24
16.1	General bolting requirements .....	24
16.2	Exposed bolting .....	24
16.3	Nonexposed bolting .....	25
17	Plating, coatings, and diffusion processes .....	25
18	Special components .....	25
18.1	General requirements for special components .....	25
18.2	Bearings .....	25
18.3	Springs .....	26
18.4	Instrumentation and control devices .....	26
18.4.1	General requirements for instrumentation and control devices .....	26
18.4.2	Diaphragms, pressure-measuring devices, and pressure seals .....	26
18.5	Seal rings and gaskets .....	26
18.6	Snap Rings .....	27
18.7	Special process parts .....	27
19	Valves .....	27

<b>20</b>	<b>Compressors and pumps .....</b>	<b>27</b>
	<b>Annex A (informative) Sulfide species plot .....</b>	<b>29</b>
	<b>Annex B (informative) Background information on hardness testing and requirements .....</b>	<b>30</b>
	<b>Annex C (normative) Welding procedure qualification hardness survey layouts .....</b>	<b>34</b>
	<b>Bibliography .....</b>	<b>43</b>
