

ISO 17945:2015-04 (E)

Petroleum, petrochemical and natural gas industries - Metallic materials resistant to sulfide stress cracking in corrosive petroleum refining environments

Contents	Page
Foreword	v
Introduction	vi
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Symbols and abbreviated terms	3
5 Responsibilities	3
5.1 Responsibilities of the end user	3
5.2 Responsibility of the manufacturer	4
6 Factors contributing to SSC	4
6.1 General parameters affecting SSC	4
6.2 Effect of material condition and stress level on susceptibility to SSC	4
6.3 Effect of hydrogen permeation flux on SSC	5
6.4 Effect of elevated temperature exposure on SSC	5
6.5 Factors affecting time to failure due to SSC	6
6.6 Bases for establishing whether equipment falls within the scope of this International Standard	6
7 Materials included in this International Standard	6
8 Hardness requirements	7
9 Procedure for the addition of new materials or processes	8
9.1 General balloting requirements	8
9.2 Field experience data requirements	8
9.3 Laboratory test data requirements	8
10 New restrictions and deleted materials	8
11 Qualification of unlisted alloys, conditions, and/or processes for specific applications	9
12 Standard road map	9
13 Ferrous materials	11
13.1 Carbon and alloy steels	11
13.1.1 Requirements for all carbon and alloy steels	11
13.1.2 Requirements for carbon steels listed as P-No. 1 Group 1 or 2 in Section IX of the ASME BPVC	11
13.1.3 Requirements for other carbon steels	11
13.1.4 Requirements for alloy steels listed with P-numbers in Section IX of the ASME BPVC	12
13.1.5 Requirements for other alloy steels	12
13.1.6 Requirements for cold-formed carbon and alloy steels	12
13.1.7 Welding requirements for carbon steels listed as P-No. 1 in Section IX of the ASME BPVC	12

13.1.8	Welding requirements for alloy steels listed as P-No. 3, 4, or 5A in Section IX of the ASME BPVC	13
13.1.9	Corrosion resistant weld overlays, hard facing weld overlays, cladding, and thermal spray coatings on carbon steels and alloy steels	13
13.2	Cast iron and ductile iron	13
13.3	Ferritic stainless steels	14
13.4	Martensitic stainless steels	14
13.4.1	Conventional martensitic stainless steels	14
13.4.2	Low-carbon martensitic stainless steels	14
13.4.3	Welding and overlays on martensitic stainless steels	15
13.5	Austenitic stainless steels	15
13.6	Specific austenitic stainless steel grades	16
13.7	Highly alloyed austenitic stainless steels	16
13.8	Duplex stainless steels	16
13.8.1	General requirements for duplex stainless steels	16
13.8.2	Welding requirements for duplex stainless steels	17
13.9	Precipitation-hardenable stainless steels	17
13.9.1	Austenitic precipitation-hardenable stainless steel	17
13.9.2	Martensitic precipitation-hardenable stainless steels	17
13.9.3	Welding requirements for precipitation-hardenable stainless steels	18
14	Nonferrous materials	19
14.1	Nickel alloys	19
14.1.1	Solid-solution nickel alloys	19
14.1.2	Precipitation-hardenable nickel alloys	20
14.2	Cobalt-Nickel-chromium-molybdenum alloys	20
14.3	Cobalt-nickel-chromium-tungsten alloys	21
14.4	Titanium alloys	21
14.5	Aluminium alloys	22
14.6	Copper alloys	22
15	Fabrication requirements	22
15.1	General fabrication requirements	22
15.2	Corrosion resistant overlays, hard facing overlays, and cladding	22
15.3	Welding	22
15.4	Cladding on carbon steels, alloy steels, and martensitic stainless steels	23
15.5	Identification stamping	23
15.6	Threading	24
15.6.1	Machine-cut threads	24
15.6.2	Cold-formed (rolled) threads	24
15.7	Cold-deformation processes	24
16	Bolting	24
16.1	General bolting requirements	24
16.2	Exposed bolting	24
16.3	Nonexposed bolting	25
17	Plating, coatings, and diffusion processes	25
18	Special components	25
18.1	General requirements for special components	25
18.2	Bearings	25
18.3	Springs	26
18.4	Instrumentation and control devices	26
18.4.1	General requirements for instrumentation and control devices	26
18.4.2	Diaphragms, pressure-measuring devices, and pressure seals	26
18.5	Seal rings and gaskets	26
18.6	Snap Rings	27
18.7	Special process parts	27
19	Valves	27

20	Compressors and pumps	27
Annex A (informative)	Sulfide species plot	29
Annex B (informative)	Background information on hardness testing and requirements	30
Annex C (normative)	Welding procedure qualification hardness survey layouts	34
