Foreword ... **v**

Introduction ... **vii**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **2**

4 Symbols and abbreviated terms ... **4**
4.1 General ... 4
4.2 Symbols for shallow foundations design ... 4
4.3 Symbols for pile foundations design ... 7
4.4 Symbols for soil-structure interaction for auxiliary subsea structures, risers and flowlines ... 10
4.5 Symbols for design of anchors for stationkeeping systems ... 11
4.6 Abbreviated terms ... 12

5 General requirements ... **13**
5.1 General ... 13
5.2 Design cases and safety factors ... 14
5.3 Characteristic values of soil properties ... 14
5.4 Testing and instrumentation ... 15

6 Geotechnical data acquisition and identification of hazards ... **16**
6.1 General ... 16
6.2 Shallow geophysical investigation ... 16
6.3 Geological modelling and identification of hazards ... 17
6.3.1 General ... 17
6.3.2 Earthquakes ... 17
6.3.3 Fault planes ... 17
6.3.4 Seafloor instability ... 17
6.3.5 Scour and sediment mobility ... 18
6.3.6 Shallow gas ... 18
6.3.7 Seabed subsidence ... 18
6.4 Carbonate soils ... 19

7 Design of shallow foundations ... **19**
7.1 General ... 19
7.2 Principles ... 20
7.2.1 General principles ... 20
7.2.2 Sign conventions, nomenclature and action reference point ... 21
7.2.3 Action transfer ... 21
7.2.4 Idealization of foundation area and the effective area concept ... 21
7.3 Acceptance criteria and design considerations ... 22
7.3.1 Action and material factors ... 22
7.3.2 Use in design ... 22
7.3.3 Special cases ... 23
7.3.4 Additional design considerations ... 24
7.3.5 Alternative method of design based on yield surfaces ... 26
7.3.6 Selection of soil parameter values for design ... 27
7.4 Stability of shallow foundations ... 27
7.4.1 Assessment of bearing capacity ... 27
7.4.2 Assessment of sliding capacity ... 29
7.4.3 Assessment of torsional capacity ... 31

7.5 Serviceability (displacements and rotations) 31
7.5.1 General 31
7.5.2 Displacement under static loading 31
7.5.3 Displacement under dynamic and cyclic actions 34
7.5.4 Other contributors to foundation settlement 34
7.6 Other design considerations 34
7.6.1 Hydraulic stability 34
7.6.2 Installation, retrieval and removal 34
8 Pile foundation design 35
8.1 Pile capacity for axial compression 35
8.1.1 General 35
8.1.2 Axial pile capacity 36
8.1.3 Skin friction and end bearing in cohesive soils 37
8.1.4 Skin friction and end bearing in cohesionless soils 38
8.1.5 Skin friction and end bearing of grouted piles in rock 40
8.2 Pile capacity for axial tension 41
8.3 Axial pile performance 41
8.3.1 Static axial behaviour of piles 41
8.3.2 Cyclic axial behaviour of piles 41
8.4 Soil reaction for piles under axial compression 41
8.4.1 Axial shear transfer ***t–z*** curves 41
8.4.2 End bearing resistance–displacement, ***Q–z***, curve 42
8.5 Soil reaction for piles under lateral actions 44
8.5.1 General 44
8.5.2 Lateral capacity for soft clay 45
8.5.3 Lateral soil resistance–displacement ***p–y*** curves for soft clay 45
8.5.4 Lateral capacity for stiff clay 45
8.5.5 Lateral soil resistance–displacement ***p–y*** curves for stiff clay 46
8.5.6 Lateral capacity for sand 47
8.5.7 Lateral soil resistance – displacement ***p–y*** curves for sand 48
8.6 Pile group behaviour 49
8.6.1 General 49
8.6.2 Axial behaviour 49
8.6.3 Lateral behaviour 50
9 Pile installation assessment 50
9.1 General 50
9.2 Drivability studies 51
9.3 Obtaining required pile penetration 51
9.4 Driven pile refusal 52
9.5 Pile refusal remedial measures 52
9.5.1 Review of hammer performance 52
9.5.2 Re-evaluation of design penetration 52
9.5.3 Modifications to piling procedures 52
9.6 Selection of pile hammer and stresses during driving 53
9.7 Use of hydraulic hammers 53
9.8 Drilled and grouted piles 54
9.9 Belled piles 55
9.10 Grouting pile-to-sleeve connections 55
9.11 Pile installation data 55
9.12 Installation of conductors and shallow well drilling 55
10 Soil-structure interaction for auxiliary subsea structures, risers and flowlines 56
11 Design of anchors for floating structures 56
Annex A (informative) **Additional information and guidance 57**
