

# ISO 35103:2017-12 (E)

## Petroleum and natural gas industries - Arctic operations - Environmental monitoring

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | v           |
| Introduction ..... |  | vi          |
| <b>1</b>           | <b>Scope .....</b>   | <b>1</b>    |
| <b>2</b>           | <b>Normative references .....</b>                              | <b>1</b>    |
| <b>3</b>           | <b>Terms and definitions .....</b>                             | <b>1</b>    |
| <b>4</b>           | <b>Abbreviated terms .....</b>                                 | <b>5</b>    |
| <b>5</b>           | <b>General requirements for environmental monitoring .....</b> | <b>6</b>    |
| 5.1                | Application of ISO management system standards .....           | 6           |
| 5.2                | Objectives of environmental monitoring .....                   | 6           |
| 5.3                | Specification for monitoring .....                             | 6           |
| 5.4                | Planning a monitoring programme .....                          | 7           |
| 5.4.1              | Programme specification .....                                  | 7           |
| 5.4.2              | Programme adjustment .....                                     | 8           |
| 5.4.3              | Action on non-compliance .....                                 | 8           |
| 5.5                | Spatial scales .....   | 8           |
| 5.5.1              | General .....  | 8           |
| 5.5.2              | Near-field .....   | 8           |
| 5.5.3              | Far-field .....  | 8           |
| 5.5.4              | Regional .....   | 8           |
| 5.5.5              | Transboundary .....  | 8           |
| 5.6                | Temporal scales .....  | 8           |
| 5.6.1              | Design .....   | 8           |
| 5.6.2              | Variation in environmental aspects .....                       | 9           |
| 5.6.3              | Natural fluctuations .....                                     | 9           |
| 5.7                | Environmental aspects .....                                    | 9           |
| 5.7.1              | Types of environmental aspects .....                           | 9           |
| 5.7.2              | Normal, abnormal and emergency conditions .....                | 9           |
| 5.7.3              | Control aspect in response to monitoring .....                 | 10          |
| 5.8                | Environments and components .....                              | 10          |
| 5.9                | Baseline conditions .....                                      | 10          |
| 5.10               | Parameters .....   | 10          |
| 5.10.1             | Selection of parameters .....                                  | 10          |
| 5.10.2             | Accuracy .....   | 10          |
| 5.10.3             | Detection limits .....   | 11          |
| 5.10.4             | Units and other specifications .....                           | 11          |
| 5.10.5             | Physical parameters .....                                      | 11          |
| 5.10.6             | Chemical parameters .....                                      | 11          |
| 5.10.7             | Biological parameters .....                                    | 11          |
| 5.10.8             | Associated measurements .....                                  | 12          |
| 5.10.9             | Position fixing .....  | 12          |
| 5.11               | Modelling .....  | 12          |
| 5.12               | Sampling .....   | 13          |
| 5.13               | Analytical methods .....                                       | 13          |
| 5.14               | Toxicity tests .....   | 13          |
| 5.15               | Statistical methods .....                                      | 13          |
| 5.16               | Costs of monitoring .....                                      | 13          |

|        |   |    |
|--------|---|----|
| 5.17   | Environmental monitoring report .....                                       | 13 |
| 6      | Factors to be considered for Arctic offshore environments .....             | 14 |
| 6.1    | Characteristics of the Arctic .....   | 14 |
| 6.2    | Polar location .....  | 14 |
| 6.2.1  | Remoteness .....  | 14 |
| 6.2.2  | Positioning .....   | 14 |
| 6.2.3  | Day/night cycle .....   | 14 |
| 6.3    | Low temperatures .....  | 14 |
| 6.4    | Seasonal characteristics .....  | 15 |
| 6.5    | Ice environments .....  | 15 |
| 6.6    | Endemic species .....   | 15 |
| 6.6.1  | General .....   | 15 |
| 6.6.2  | Identification .....  | 16 |
| 6.6.3  | Ice flora and fauna .....   | 16 |
| 6.7    | Human communities .....   | 16 |
| 6.7.1  | General .....   | 16 |
| 6.7.2  | Indigenous peoples .....  | 16 |
| 6.7.3  | Local and traditional knowledge .....                                       | 16 |
| 7      | Monitoring requirements for offshore oil and gas sector in the Arctic ..... | 16 |
| 7.1    | General .....   | 16 |
| 7.2    | Offshore life cycle phases .....  | 16 |
| 7.3    | Offshore environmental monitoring programme design .....                    | 17 |
| 7.3.1  | Objectives of offshore environmental monitoring .....                       | 17 |
| 7.3.2  | General aspects of environmental monitoring programme .....                 | 17 |
| 7.3.3  | Offshore environmental aspect and environmental impact identification ..... | 17 |
| 7.3.4  | Sampling and analysis .....   | 18 |
| 7.3.5  | Reference sampling .....  | 18 |
| 7.3.6  | Near-field sampling .....   | 19 |
| 7.3.7  | Far-field sampling .....  | 19 |
| 7.3.8  | Regional sampling .....   | 20 |
| 7.3.9  | Field specific stations .....   | 20 |
| 7.3.10 | Marine toxicity testing .....   | 20 |
| 7.4    | Environmental monitoring programme implementation .....                     | 20 |
| 7.4.1  | Pre-development .....   | 20 |
| 7.4.2  | Exploration .....   | 21 |
| 7.4.3  | Construction and commissioning .....  | 22 |
| 7.4.4  | Production phase .....  | 22 |
| 7.4.5  | Decommissioning and facility removal .....                                  | 23 |
| 7.4.6  | Site restoration .....  | 23 |
| 7.4.7  | Logistics, air and sea transport and accommodation .....                    | 23 |
| 7.4.8  | Monitoring during emergency conditions .....                                | 24 |
|        | Bibliography .....  | 25 |
