

# DIN EN ISO 19900:2019-10 (E)

## Petroleum and natural gas industries - General requirements for offshore structures (ISO 19900:2019); English version EN ISO 19900:2019

---

### Contents

	Page
Foreword .....	v
Introduction .....	vi
<b>1 Scope .....</b>	<b>1</b>
<b>2 Normative references .....</b>	<b>1</b>
<b>3 Terms and definitions .....</b>	<b>2</b>
<b>4 Symbols and abbreviated terms .....</b>	<b>8</b>
4.1 Symbols .....	8
4.2 Abbreviated terms .....	9
<b>5 Fundamental requirements .....</b>	<b>9</b>
5.1 General .....	9
5.2 Structural integrity requirements .....	10
5.3 Functional requirements .....	10
5.4 Requirements for specific phases of the life of the structure .....	11
5.4.1 Planning .....	11
5.4.2 Construction and deployment .....	11
5.4.3 Structural integrity management .....	11
5.4.4 Decommissioning and removal .....	11
5.5 Requirements for durability and robustness .....	12
5.5.1 Durability, maintenance and inspection .....	12
5.5.2 Robustness .....	12
<b>6 Basis for design/assessment .....</b>	<b>13</b>
6.1 General .....	13
6.2 Platform location and orientation .....	13
6.3 Physical environmental conditions .....	14
6.4 Geotechnical and geophysical conditions .....	14
6.4.1 Marine site investigations .....	14
6.4.2 Seabed instability .....	15
6.4.3 Seabed disturbance .....	15
6.5 Specific design/assessment requirements .....	16
6.5.1 Topsides structures .....	16
6.5.2 Deck elevation .....	16
6.5.3 Splash zone .....	17
6.5.4 Stationkeeping systems .....	17
6.5.5 Conductor and riser systems .....	17
6.5.6 Foundations and anchoring .....	17
6.5.7 Additional operational requirements .....	18
<b>7 Development of design/assessment situations .....</b>	<b>18</b>
7.1 Hazards .....	18
7.2 Hazardous events .....	18
7.3 Exposure levels .....	19
7.3.1 General .....	19
7.3.2 Exposure level L1 .....	20
7.3.3 Exposure level L2 .....	20
7.3.4 Exposure level L3 .....	20

7.4	Design/assessment situations	21
7.4.1	General	21
7.4.2	Operational design/assessment situations	21
7.4.3	Extreme design/assessment situations	22
7.4.4	Abnormal design/assessment situations	22
7.4.5	Accidental design/assessment situations	23
7.4.6	Short duration design/assessment situations	23
7.4.7	Serviceability design/assessment situations	24
<b>8</b>	<b>Limit state verification</b>	<b>24</b>
8.1	General	24
8.2	Basic variables and representative values	25
8.3	Limit states	26
8.3.1	Categories of limit states	26
8.3.2	Ultimate limit states	26
8.3.3	Abnormal/accidental limit states	27
8.3.4	Serviceability limit states	27
8.3.5	Fatigue limit states	27
8.4	Limit state verification procedure	28
<b>9</b>	<b>Actions</b>	<b>28</b>
9.1	Classifications of actions	28
9.2	Permanent actions and their representative values	29
9.3	Operational actions and their representative values	29
9.4	Environmental actions and their representative values	30
9.5	Accidental actions and their representative values	31
9.6	Repetitive actions	31
<b>10</b>	<b>Design values and partial factors</b>	<b>32</b>
10.1	Design values of actions	32
10.2	Actions acting in combination	32
10.2.1	Principal and companion actions for the same action type	32
10.2.2	Principal and accompanying actions for specific design/assessment situations	33
10.3	Design values of resistance	33
10.3.1	General	33
10.3.2	Design values of materials including soils	33
10.3.3	Design values of geometric variables	34
10.3.4	Uncertainties in analysis models	34
10.4	Partial factors for operational and extreme design/assessment situations	34
10.5	Partial factors for abnormal and accidental design/assessment situations	34
10.6	Partial factors for serviceability design/assessment situations	35
10.7	Partial factors for fatigue design/assessment verification	35
10.8	Probabilistic modelling and analysis	35
<b>11</b>	<b>Models and analysis</b>	<b>35</b>
<b>12</b>	<b>Quality management</b>	<b>36</b>
12.1	General	36
12.2	Installation inspection	36
12.3	In-service inspection, maintenance and repair	36
12.4	Records and documentation of design and construction	37
12.4.1	General	37
12.4.2	Calculations	37
12.4.3	Weight and centre of gravity reports	38
12.4.4	Drawings and specifications	38
<b>13</b>	<b>Assessment of existing structures</b>	<b>38</b>
13.1	General	38
13.2	Condition assessment	39
13.2.1	General	39
13.2.2	Service and operating requirements	39
13.2.3	Environmental conditions	39
13.2.4	Testing, inspection, maintenance and repair history	39

13.3	Action assessment.....	40
13.4	Resistance assessment.....	40
13.5	Component and system failure consequences.....	40
13.6	Mitigation.....	40
<b>Annex A (informative) Additional information and guidance .....</b>		<b>41</b>
<b>Bibliography .....</b>		<b>64</b>
