DIN CEN ISO/TS 3250:2023-06 (E)

Petroleum, petrochemical and natural gas industries - Calculation and reporting production efficiency in the operating phase (ISO/TS 3250:2021); English version CEN ISO/TS 3250:2022

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms, definitions and abbreviated terms **1**
3.1 Terms and definitions 1
3.2 Abbreviations 12

4 Application **13**
4.1 Users of this document 13
4.2 Framework conditions 14
4.2.1 General 14
4.2.2 Quality assurance 16
4.2.3 HSE considerations 16
4.2.4 Sustainability and climate change considerations 17
4.3 Business category 17
4.4 Overview of PE calculation and reporting work process 18
4.5 Limitations 19
4.6 PE data exchange between operators in benchmarking 20

5 Performance measures **20**
5.1 General 20
5.2 Production efficiency 20
5.2.1 PE forecasting 20
5.2.2 PE calculation and reporting 21
5.2.3 Initial production performance 21
5.3 PE measurement 22
5.4 PE calculation methodology 23
5.4.1 PE calculation formula 23
5.4.2 PE boundary conditions and reporting period 23
5.5 Injection efficiency calculation formula 23

6 Production **24**
6.1 General 24
6.2 Material balance 24
6.3 Export – measured product 25
6.4 Conversion factors for oil equivalents 26
6.5 Injection 26
6.6 Disposal – general 26
6.7 Disposal – flaring or venting of large volumes 26
6.7.1 Production facilities with a gas export route (to sales) 26
6.7.2 Production facilities with a gas injection route only 26
6.7.3 Production facilities with no gas export route or other gas disposal routes 27
6.7.4 Flaring restrictions 27
6.8 Disposal – venting of small volumes 27
6.9 Fuel 27
6.10 Import 27
6.11 Artificial lift 28

7 Production potential **28**

7.1 General 28
7.2 Methods for determination of production potential 28
7.3 Structural maximum production potential (Method A) 28
7.4 Achieved production potential (Method B) 30
7.5 Differences between Method A and Method B 30
7.6 Adjusting the production potential 31
7.7 Schedule delays 33
7.8 Injection potential 34

8 Production loss categories 35
8.1 General 35
8.2 Planned and unplanned events 35
8.3 Turnaround 35
8.4 Modification 36
8.5 Pre-production 36
8.6 Flaring and venting of gas 36
8.7 Injection 36
8.8 Accounting period 37

Annex A (normative) **Production loss categorization 38**

Annex B (informative) **Performance measures for production availability 49**

Annex C (normative) **Taxonomy classification 52**

Annex D (informative) **Production loss subdivision with respect to system and equipment class 53**

Annex E (informative) **Examples 59**

Bibliography 71
