ISO 7055:2023-08 (E)

Natural gas - Upstream area - Determination of drag reduction in laboratory for slick water

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Principle 2
4.1 Working principle of drag reduction test by fluid flow loop 2
4.2 Calculation formula 2

5 Measurement device 3
5.1 Fluid flow loop 3
5.1.1 Mixing tank 3
5.1.2 Test pipe 3
5.1.3 Pump 3
5.1.4 Flow meter 3
5.1.5 Pressure sensor 3
5.2 Electronic balance 3

6 Reagents and materials 3
6.1 Water 3
6.2 Additive 3

7 Measurement 3
7.1 Preparation 3
7.2 Measurement of drag reduction 4
7.3 Data processing 4
7.4 Protocol 4

8 Repeatability 4

Bibliography 5
