DIN EN ISO 13703-3:2024-02 (E)

Oil and gas industries including lower carbon energy - Piping systems on offshore production platforms and onshore plants - Part 3: Fabrication (ISO 13703-3:2023)

Contents

Page

European foreword ... **4**

Foreword ... **5**

Introduction ... **6**

1 Scope ... **7**

2 Normative references ... **7**

3 Terms and definitions ... **9**

4 Abbreviated terms ... **13**
4.1 Symbols ... 13
4.2 Abbreviated terms ... 13

5 Health, safety and quality requirements ... **15**
5.1 Health and safety requirements ... 15
5.2 Quality requirements ... 16

6 Welding requirements ... **17**
6.1 General requirements ... 17
6.2 Welding processes ... 18
6.3 Preparation for welding ... 18
6.4 Welder and welding operator performance qualification ... 21

7 Welding consumables ... **21**
7.1 General requirements ... 21
7.2 Additional requirements for carbon steel ... 23
7.3 Additional requirements for dissimilar welding ... 23
7.4 Additional requirements for SS 300-series ... 23
7.5 Additional requirements for SS type 22Cr duplex and SS type 25Cr duplex ... 23
7.6 Additional requirements for high alloy stainless steels ... 23
7.7 Shielding, backing and secondary trailing gases ... 24

8 Welding procedure qualification ... **24**
8.1 General requirements ... 24
8.2 Additional requirements for carbon steels ... 25
8.3 Additional requirements for SS type 22Cr duplex and SS type 25Cr duplex ... 25
8.4 Additional requirements for high alloyed austenitic stainless steels ... 26
8.5 Additional requirements for CP titanium ... 26
8.6 Additional requirements for materials in sour service ... 26
8.7 Welding procedure qualification essential variable ... 27

9 Preheat and post weld heat treatment' ... **29**
9.1 Preheating ... 29
9.2 Post weld heat treatment ... 30

10 Bending of pipe ... **32**
10.1 General requirements ... 32
10.2 Heat treatment of bends ... 35
10.3 Examination of bends ... 36

11 Installation ... **37**
11.1 General requirements ... 37

11.2 Threaded connections 37
11.3 Bolted connections 37

12 Inspection, examination and testing 38
12.1 General requirements 38
12.2 Visual examination 41
12.3 Magnetic particle examination 42
12.4 Liquid penetrant examination 42
12.5 Radiographic examination 42
12.6 Ultrasonic examination 43
12.7 Positive materials identification 44
12.8 Production testing 45
12.9 Weld metal ferrite testing 46
12.10 Repairs and replacement 47

13 Cleaning, leak testing and preservation 48
13.1 General requirements 48
13.2 Flushing and cleaning 49
13.3 Leak testing 50
13.4 Tightness testing 51
13.5 Preservation 52

Annex A (informative) **Reference images for oxidation of weldments 53**

Annex B (normative) **Requirements for cold bending of pipes 57**

Annex C (normative) **Requirements for hot induction bending of pipes 60**

Annex D (informative) **Guidance to European Pressure Equipment Directive 62**
