

ISO 6398-1:2024-06 (E)

Oil and gas industries including lower carbon energy - Submersible linear motor systems for artificial lift - Part 1: Submersible linear motor

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols and abbreviations	4
4.1	Abbreviated terms	4
4.2	Symbols	4
5	Functional specification	5
5.1	General	5
5.2	SLM type description	5
5.3	Functional requirements	5
5.3.1	General	5
5.3.2	Application parameters	5
5.3.3	Environmental compatibility	7
5.3.4	Compatibility with related well equipment and services	8
5.4	User/purchaser selections	8
5.4.1	General	8
5.4.2	Design validation	8
5.4.3	Functional evaluation	8
5.4.4	Quality grades	9
5.4.5	Shipping, handling, and storage	9
5.4.6	Additional documentation or requirements	9
6	Technical specification	9
6.1	General	9
6.2	Design criteria	9
6.2.1	General	9
6.2.2	Design documentation	9
6.2.3	Materials	10
6.2.4	Dimensional information	11
6.2.5	Design verification	11
6.2.6	Design validation	11
6.2.7	Functional evaluation requirements	12
6.2.8	Design changes	12
6.3	Technical specification — SLM	12
6.3.1	General	12
6.3.2	Technical characteristics	12
6.3.3	Performance rating	12
6.3.4	Scaling of design validation	12
7	Supplier's/manufacturer's requirements	12
7.1	General	12
7.2	Documentation information	13
7.2.1	General	13
7.2.2	Delivery documentation	13
7.2.3	Operation's manual	13
7.2.4	Product qualification certificate	14
7.2.5	Product data sheet	14

7.3	Electrical nameplate.....	14
7.4	Permanent component identification.....	14
7.5	Quality.....	14
	7.5.1 General.....	14
	7.5.2 Quality grade requirements.....	15
7.6	Raw materials.....	15
7.7	Traceability.....	16
7.8	Calibration systems.....	16
7.9	Examination and inspection.....	16
	7.9.1 General.....	16
	7.9.2 Weld.....	17
	7.9.3 Dimensional inspection.....	17
7.10	Manufacturing non-conformity.....	18
7.11	Functional testing.....	18
8	Repair/redress.....	18
9	Shipping, handling, and storage.....	18
	9.1 General.....	18
	9.2 Storage.....	18
	Annex A (normative) Design validation performance rating requirements.....	20
	Annex B (normative) Functional evaluation.....	25
	Annex C (informative) Schematic of the test device.....	31
	Annex D (informative) Components of the submersible linear motor.....	34
	Bibliography.....	35
