

ISO/TS 20790:2024-10 (E)

Oil and gas industries including lower carbon energy - Guidelines for green manufacturing and lower carbon emission of oil and gas-field equipment and materials

Contents	Page
Foreword.....	v
Introduction.....	vi
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 General	3
5 Green attributes	4
5.1 Principles for determination.....	4
5.1.1 General purpose.....	4
5.1.2 Operational and measurable.....	4
5.1.3 Systematic and specific.....	4
5.2 Green attribute system.....	5
5.3 Green attribute content and measurement indexes.....	5
6 Basic principles	6
6.1 General.....	6
6.2 Green design.....	6
6.2.1 General.....	6
6.2.2 Materials.....	7
6.2.3 Structure.....	7
6.3 Green processing.....	8
6.3.1 Application of new processes.....	8
6.3.2 Resource consumption control.....	8
6.3.3 Emission control.....	8
6.4 Operation process.....	8
6.5 Resource and energy cyclic utilization.....	8
7 Typical practices	8
7.1 General.....	8
7.2 Practices mainly contributing to carbon replacement.....	9
7.2.1 Pure hydrogen or hydrogen-mixed pipeline transmission.....	9
7.2.2 Underground hydrogen storage.....	9
7.3 Practices mainly contributing to carbon emission reduction.....	10
7.3.1 Application of low consumption and low emission power engine.....	10
7.3.2 Drilling rig potential energy recovery and application of energy storage.....	10
7.3.3 "Well factory" large platform drilling.....	10
7.3.4 Coating for pipelines and storages.....	10
7.3.5 Remanufacturing.....	11
7.4 Practices mainly contributing to carbon storage.....	11
7.5 Practices mainly contributing to others.....	11
7.5.1 Waste liquid treatment.....	11
7.5.2 Materials used for aggressive environments.....	12
8 Green assessment	12
8.1 Green assessment content.....	12
8.2 Green assessment methods.....	12
8.2.1 Life cycle assessment method.....	12
8.2.2 Other methods.....	13

9	Green management	13
9.1	Basic ideas and process	13
9.2	Recommendations for the related parties	14
9.3	Product documentation.....	14
9.4	Identification.....	14
	Annex A (informative) Examples of green processes and techniques	15
	Annex B (informative) An example of life cycle assessment	17
	Bibliography	20
