

ISO 13628-1:2025-01 (E)

Oil and gas industries including low carbon energy - Design and operation of subsea production systems - Part 1: General requirements and recommendations

Contents		Page
	Foreword	v
	Introduction	vi
1	Scope	1
2	Normative references	1
3	Terms, definitions and abbreviated terms	1
	3.1 Terms and definitions.....	1
	3.2 Abbreviated terms.....	3
4	Subsea production system	4
	4.1 General.....	4
	4.2 System configuration.....	4
	4.3 Overview of API 17 series documents by categories.....	5
	4.3.1 System level documents.....	5
	4.3.2 Subsea hardware (wellheads, trees, manifolds, structures, connectors, and pumps).....	6
	4.3.3 Flowlines and risers.....	7
	4.3.4 Control systems.....	7
	4.3.5 Intervention systems.....	8
5	Systems engineering	8
	5.1 General.....	8
	5.2 Systems engineering process.....	9
	5.3 Subsea system production assurance and reliability management.....	10
6	Equipment design requirements	11
	6.1 Design basis.....	11
	6.2 Safety.....	11
	6.2.1 General.....	11
	6.2.2 Safety strategy.....	12
	6.2.3 Safety by design.....	12
	6.3 Barrier and isolation considerations.....	12
	6.3.1 Barrier philosophy.....	12
	6.3.2 Barrier requirements.....	14
	6.3.3 Subsea isolation philosophy.....	14
	6.4 Materials.....	15
	6.5 Structural analysis.....	16
	6.5.1 General.....	16
	6.5.2 Wellhead, tree, and C/WO riser system analysis.....	16
	6.6 Pumps, piping, and valves.....	16
	6.7 Dropped objects and fishing gear loads.....	17
	6.8 Lifting components, padeyes, and unpressurized structural components.....	17
	6.9 Colours and marking.....	17
	6.10 Tolerance evaluation.....	17
	6.11 Design for installation.....	18
	6.12 Environmental considerations.....	18
	6.13 Evaluation of subsea pressure testing limitations.....	18
	6.14 Design for intervention.....	19
7	Technology management guidance	19
	7.1 Technology development and qualification.....	19

7.2	Obsolescence management.....	20
8	Manufacture, assembly, testing, installation, and commissioning guidance.....	21
8.1	Manufacture.....	21
8.2	Assembly.....	21
8.3	Testing.....	21
	8.3.1 General.....	21
	8.3.2 Inspection and test plans.....	22
8.4	Transportation, preservation, and storage.....	22
8.5	Load-out and installation.....	23
8.6	Commissioning/systems completion.....	24
9	Operations guidance.....	24
9.1	Integrity management.....	24
	9.1.1 Condition monitoring.....	24
	9.1.2 Reliability data collection/reporting.....	25
	9.1.3 Subsea production system maintenance.....	25
9.2	Production management.....	25
10	Well intervention guidance.....	26
11	Decommissioning guidance.....	26
	Annex A (informative) Systems engineering processes.....	28
	Bibliography.....	29
