

DIN EN ISO 13628-1:2025-04 (E)

Oil and gas industries including low carbon energy - Design and operation of subsea production systems - Part 1: General requirements and recommendations (ISO 13628-1:2025); English version EN ISO 13628-1:2025

| Contents | | Page |
|---|--|-------------|
| Foreword | | v |
| Introduction | | vi |
| 1 Scope | | 1 |
| 2 Normative references | | 1 |
| 3 Terms, definitions and abbreviated terms | | 1 |
| 3.1 Terms and definitions..... | | 1 |
| 3.2 Abbreviated terms..... | | 3 |
| 4 Subsea production system | | 4 |
| 4.1 General..... | | 4 |
| 4.2 System configuration..... | | 4 |
| 4.3 Overview of API 17 series documents by categories..... | | 5 |
| 4.3.1 System level documents..... | | 5 |
| 4.3.2 Subsea hardware (wellheads, trees, manifolds, structures, connectors, and pumps)..... | | 6 |
| 4.3.3 Flowlines and risers..... | | 7 |
| 4.3.4 Control systems..... | | 7 |
| 4.3.5 Intervention systems..... | | 8 |
| 5 Systems engineering | | 8 |
| 5.1 General..... | | 8 |
| 5.2 Systems engineering process..... | | 9 |
| 5.3 Subsea system production assurance and reliability management..... | | 10 |
| 6 Equipment design requirements | | 11 |
| 6.1 Design basis..... | | 11 |
| 6.2 Safety..... | | 11 |
| 6.2.1 General..... | | 11 |
| 6.2.2 Safety strategy..... | | 12 |
| 6.2.3 Safety by design..... | | 12 |
| 6.3 Barrier and isolation considerations..... | | 12 |
| 6.3.1 Barrier philosophy..... | | 12 |
| 6.3.2 Barrier requirements..... | | 14 |
| 6.3.3 Subsea isolation philosophy..... | | 14 |
| 6.4 Materials..... | | 15 |
| 6.5 Structural analysis..... | | 16 |
| 6.5.1 General..... | | 16 |
| 6.5.2 Wellhead, tree, and C/WO riser system analysis..... | | 16 |
| 6.6 Pumps, piping, and valves..... | | 16 |
| 6.7 Dropped objects and fishing gear loads..... | | 17 |
| 6.8 Lifting components, padeyes, and unpressurized structural components..... | | 17 |
| 6.9 Colours and marking..... | | 17 |
| 6.10 Tolerance evaluation..... | | 17 |
| 6.11 Design for installation..... | | 18 |
| 6.12 Environmental considerations..... | | 18 |
| 6.13 Evaluation of subsea pressure testing limitations..... | | 18 |
| 6.14 Design for intervention..... | | 19 |

| | | |
|-----------|---|-----------|
| 7 | Technology management guidance | 19 |
| 7.1 | Technology development and qualification | 19 |
| 7.2 | Obsolescence management | 20 |
| 8 | Manufacture, assembly, testing, installation, and commissioning guidance | 21 |
| 8.1 | Manufacture | 21 |
| 8.2 | Assembly | 21 |
| 8.3 | Testing | 21 |
| | 8.3.1 General | 21 |
| | 8.3.2 Inspection and test plans | 22 |
| 8.4 | Transportation, preservation, and storage | 22 |
| 8.5 | Load-out and installation | 23 |
| 8.6 | Commissioning/systems completion | 24 |
| 9 | Operations guidance | 24 |
| 9.1 | Integrity management | 24 |
| | 9.1.1 Condition monitoring | 24 |
| | 9.1.2 Reliability data collection/reporting | 25 |
| | 9.1.3 Subsea production system maintenance | 25 |
| 9.2 | Production management | 25 |
| 10 | Well intervention guidance | 26 |
| 11 | Decommissioning guidance | 26 |
| | Annex A (informative) Systems engineering processes | 28 |
| | Bibliography | 29 |
