Foreword.....	4
Introduction	5
1 Scope.....	6
2 Normative references	7
3 Terms and definitions.....	8
4 Symbols and abbreviated terms.....	8
5 Materials of construction and wall thickness limitations	9
5.1 General	9
5.2 Fibre.....	9
5.3 Resin.....	9
5.4 Joints.....	9
5.5 Wall thickness limitations	10
6 Qualification programme.....	11
6.1 General	11
6.2 Qualification pressure and temperature	12
6.3 Effect of temperature and chemical resistance	22
6.4 Optional qualification requirements	23
6.5 Fire performance.....	24
6.6 Electrical conductivity and electrostatic dissipative properties.....	27
6.7 Additional component properties.....	30
6.8 Component data for quality control baseline.....	31
7 Preferred dimensions	32
7.1 Nominal diameters	32
7.2 Bend radii.....	33
7.3 Fitting lengths.....	33
8 Quality programme for manufacture.....	33
8.1 General requirements	33
8.2 Quality control equipment.....	33
8.3 Quality control tests	34
8.4 Quality control records.....	40
9 Component marking	41
9.1 General	41
9.2 Requirements	41
10 Handling, storage and transportation.....	41
11 Documentation	42
11.1 General	42
11.2 Purchase order documentation	42
11.3 Qualification documentation.....	42
11.4 Production quality control documentation	43
11.5 Installation documentation	43
11.6 Published values	44
Annex A (informative) Examples of component requirements for qualification.....	46
Annex B (informative) Pressure qualification test ratios	48
Annex C (normative) Failure envelope.....	51

Annex D (informative) Guidance on determination of partial factors A_1 and A_2 for temperature and chemical resistance	53
Annex E (normative) Fire endurance testing	55
Annex F (normative) Modifications to fire reaction test procedures	64
Annex G (normative) Determination of electrostatic properties of GRP pipe system components	66
Annex H (normative) Preferred dimensions	76
Annex I (informative) Example of enquiry sheet	79
Annex J (informative) Example of qualification summary form	80
Annex K (normative) Least-square method for calculating the long-term hydrostatic pressure from regression data	82
Bibliography	90
