## Petroleum and natural gas industries - General requirements for offshore structures

---

| <b>Contents</b>    |   | <b>Page</b> |
|--------------------|---|-------------|
| Foreword .....     |   | v           |
| Introduction ..... |   | vii         |
| 1                  | Scope .....                                       | 1           |
| 2                  | Terms and definitions .....                       | 1           |
| 3                  | Symbols and abbreviated terms .....               | 5           |
| 3.1                | Symbols .....                                     | 5           |
| 3.2                | Abbreviated terms .....                           | 6           |
| 4                  | General requirements and conditions .....         | 6           |
| 4.1                | Fundamental requirements .....                    | 6           |
| 4.2                | Durability, maintenance and inspection .....      | 6           |
| 4.3                | Hazards .....                                     | 7           |
| 4.4                | Design basis .....                                | 7           |
| 4.5                | Service requirements .....                        | 8           |
| 4.6                | Operating requirements .....                      | 8           |
| 4.7                | Special requirements .....                        | 8           |
| 4.8                | Location and orientation .....                    | 8           |
| 4.9                | Structural configuration .....                    | 9           |
| 4.10               | Environmental conditions .....                    | 10          |
| 4.11               | Construction .....                                | 14          |
| 4.12               | Decommissioning and removal .....                 | 14          |
| 5                  | Principles of limit states design .....           | 14          |
| 5.1                | Limit states .....                                | 14          |
| 5.2                | Design .....                                      | 16          |
| 6                  | Basic variables .....                             | 16          |
| 6.1                | General .....                                     | 16          |
| 6.2                | Actions .....                                     | 16          |
| 6.3                | Properties of materials and soils .....           | 19          |
| 6.4                | Geometrical parameters .....                      | 19          |
| 7                  | Analyses -- calculations and testing .....        | 19          |
| 7.1                | General .....                                     | 19          |
| 7.2                | Calculation .....                                 | 20          |
| 7.3                | Model testing .....                               | 20          |
| 7.4                | Prototype testing .....                           | 20          |
| 7.5                | Existing reference .....                          | 20          |
| 8                  | Design format of partial factors .....            | 20          |
| 8.1                | Principles .....                                  | 20          |
| 8.2                | Actions and their combinations .....              | 21          |
| 8.3                | Properties of materials and soils .....           | 23          |
| 8.4                | Geometrical parameters .....                      | 24          |
| 8.5                | Uncertainties of calculation models .....         | 24          |
| 8.6                | Determination of values for partial factors ..... | 24          |
| 9                  | Quality control .....                             | 24          |

|      |  |    |
|------|--|----|
| 9.1  | General .....  | 24 |
| 9.2  | Responsibilities .....   | 25 |
| 9.3  | Inspection and testing .....                                   | 25 |
| 9.4  | In-service inspection, maintenance and repair .....            | 25 |
| 9.5  | Records and documentation .....                                | 25 |
| 10   | Assessment of existing structures .....                        | 26 |
| 10.1 | General .....  | 26 |
| 10.2 | Condition assessment .....                                     | 26 |
| 10.3 | Action assessment .....  | 27 |
| 10.4 | Resistance assessment .....                                    | 27 |
| 10.5 | Component and system failure consequences and mitigation ..... | 27 |
| 10.6 | Fatigue .....  | 27 |
|      | Bibliography .....   | 28 |
