Foreword	4
Endorsement notice.....	4
Introduction	5
1 Scope.....	6
2 Normative references	6
3 Terms and definitions	6
4 Abbreviated terms.....	9
5 System configuration	9
5.1 General	9
5.2 System requirements.....	11
5.2.1 General	11
5.2.2 Installation	11
5.2.3 System test	13
5.2.4 System quality	14
5.3 Equipment requirements.....	15
5.3.1 Selection	15
5.3.2 Handling.....	17
5.3.3 Redress	17
5.4 Documentation and data control.....	18
5.4.1 General	18
5.4.2 Retained documentation	18
5.4.3 SSSV redress documentation.....	19
5.4.4 Failure reporting documentation.....	19
Annex A (normative) SSSV Redress report (minimum data requirements).....	20
A.1 General data.....	20
A.2 Redress test summary.....	20
A.2.1 SCSSVs	20
A.2.2 SSCSVs	20
Annex B (informative) Installation.....	21
B.1 General	21
B.2 Surface-controlled subsurface safety valve.....	21
B.2.1 Control line — Single completion.....	21
B.2.2 Control line — Multiple completions.....	22
B.3 Surface control system	22
B.4 Subsurface-controlled subsurface safety valves — Application to multiple and single completions	23
Annex C (informative) Operations.....	24
C.1 General	24
C.2 Operation and testing	24
C.3 Recommendations and required documentation	24
C.4 Review and responsibilities of ESD system testing.....	25
C.5 Important information on system shutdown.....	25
Annex D (informative) Sizing of subsurface-controlled safety valves	26
D.1 General	26
D.2 Velocity-type SSCSV	26
D.3 Low-tubing-pressure-type SSCSV.....	27
D.3.1 General	27
D.3.2 Flowing oil and gas wells	27
D.3.3 Gas-lift oil wells	28

Annex E (informative) SSSV Testing	31
E.1 Procedure for testing installed surface-controlled subsurface safety valves — Standard depth	31
E.2 Test procedure for installed surface-controlled subsurface safety valves — Deepwater installations	32
E.3 Test procedure for installed subsurface-controlled subsurface safety valves	33
Annex F (normative) Failure reporting	34
F.1 Failure reporting	34
F.2 Minimum information	34
Bibliography	36
