Foreword.....	4
Endorsement notice	4
Introduction	5
1 Scope	5
2 Normative references	5
3 Terms, definitions and abbreviations	6
3.1 Terms and definitions	6
3.2 Abbreviated terms	7
4 Systems and interface descriptions	10
4.1 General.....	10
4.2 System description.....	11
4.3 Subsystem interfaces.....	12
5 Design	12
5.1 General.....	12
5.2 Design criteria	12
5.3 Field development	16
5.4 Design loads.....	17
5.5 System design.....	18
5.6 Subsea wellhead	20
5.7 Tubing hanger/tree system	24
5.8 Completion/workover riser system.....	27
5.9 Mudline casing suspension system	27
5.10 Production controls.....	28
5.11 Flowlines and end connections	29
5.12 Template and manifold systems	37
5.13 Production risers	43
5.14 ROV/ROT intervention systems	44
5.15 Colours and marking.....	45
6 Materials and corrosion protection.....	45
6.1 Material evaluation.....	45
6.2 Metallic materials	46
6.3 Non-metallic materials	47
6.4 Bolting materials for subsea applications	48
6.5 External corrosion protection	49
6.6 Design limitations for materials	50
7 Manufacturing and testing	51
7.1 General requirements and recommendations	51
7.2 Test procedures	52
7.3 Integration testing.....	53
8 Operations	53
8.1 General.....	53
8.2 Transportation and handling	54
8.3 Installation	54
8.4 Drilling and completion.....	56
8.5 Hook-up and commissioning	56
8.6 Well intervention	62
8.7 Maintenance	63
8.8 Decommissioning	64

9	Documentation	66
9.1	General	66
9.2	Engineering and manufacturing	66
9.3	Operating and maintenance	66
9.4	As-built/as-installed documentation	67
Annex A	(informative) Description of subsea production systems.....	68
Annex B	(normative) Colours and marking.....	167
Annex C	(informative) Integration testing of subsea production equipment	174
Annex D	(informative) Typical procedures for commissioning	179
Annex E	(informative) Documentation for operation	183
Annex F	(informative) Datasheets	188
Annex G	(informative) Structures, process valves and piping	195
Annex H	(informative) System engineering in subsea field developments	198
Annex I	(informative) Flow assurance considerations.....	200
Annex J	(informative) Barrier philosophy considerations.....	228
Annex K	(normative) Requirements and recommendations for lifting devices and unpressurized structural components.....	232
Bibliography.....		236
