Foreword 4

Introduction 5

1 Scope 6

2 Normative references 7

3 Terms, definitions, abbreviated terms and symbols 9
3.1 Terms and definitions 9
3.2 Abbreviated terms 27
3.3 Symbols 28

4 System requirements 37
4.1 Purpose 37
4.2 Description of C/WO riser systems 37
4.3 System engineering 37
4.4 System definition 39
4.5 System design 39
4.6 System review 40
4.7 Modes of operation 41
4.8 Design principles 49
4.9 Operational principles 49
4.10 Safety principles 49
4.11 Barrier requirements 50
4.12 Regulations, codes and standards 50
4.13 Operational requirements 52
4.14 Requirements for organization and personnel qualifications 54
4.15 Quality system 54
4.16 Documentation, records and traceability 54
4.17 Verification 54
4.18 Purchaser/user's responsibility 55
4.19 Manufacturer's responsibility 55

5 Functional requirements 55
5.1 Purpose 55
5.2 System functional requirements 55
5.3 Drift requirements 56
5.4 Component requirements 57
5.5 Workover control system 76

6 Design requirements 85
6.1 Purpose 85
6.2 Design principles 85
6.3 Loads and load effects 88
6.4 Component design criteria 99
6.5 Pipe design criteria 105
6.6 Connectors 112
6.7 Design criteria for miscellaneous components 116

7 Materials and fabrication 117
7.1 Introduction 117
7.2 General material requirements 117
7.3 Products 125
7.4 Manufacture and fabrication 128
7.5 Visual inspection and non-destructive testing 131
7.6 Qualification of assembly (make-up) procedures and assemblers 133
8 Testing 133
8.1 General 133
8.2 Pretest requirements 133
8.3 Pressure testing 133
8.4 Hydraulic cleanliness 133
8.5 Qualification testing 133
8.6 Riser equipment and FAT 135
8.7 Workover control system and FAT 135
8.8 System integration tests 136
8.9 System pressure test 137
9 Marking, storage and shipping 137
9.1 Riser joints 137
9.2 Components 139
9.3 Workover control system and hydraulic equipment 139
10 Inspection, maintenance, reassessment and monitoring 139
10.1 General 139
10.2 Inspection and maintenance 139
10.3 Reassessment of risers 140
10.4 Monitoring 141
11 Documentation 141
11.1 Purpose 141
11.2 General 141
11.3 Design basis 141
11.4 Design analysis 142
11.5 Connector documentation 144
11.6 Manufacture and fabrication 147
11.7 As-built documentation 147
11.8 Design and fabrication résumé 148
11.9 Installation and operation manual(s) 148
11.10 Condition résumé 149
11.11 Filing of documentation 149
Annex A (informative) **Standardization of the C/WO riser interface (vertical tree)** 150
Annex B (informative) **Operational modes and global riser system analysis** 153
Annex C (informative) **Fatigue analysis and assessment** 171
Annex D (normative) **Structural resistance methods** 200
Annex E (informative) **Example calculations for pipe pressure design** 209
Annex F (informative) **Purchasing guideline** 213
Annex G (informative) **Bolt preload** 230
Annex H (informative) **Seals** 236
Annex I (normative) **Qualification of connectors** 238
Bibliography 246
