ISO 15320:2003-12 (E)

Pulp, paper and board — Determination of pentachlorophenol in an aqueous extract

Content

Page

Foreword v

1 Scope 1

2 Normative References 1

3 Principle 2

4 Apparatus 2
4.1 Ordinary laboratory apparatus 2
4.2 Solid phase extraction (SPE) system and SPE columns 2
4.3 Gas chromatograph 2
4.4 Capillary column, ... 2
4.5 Detector 2

5 Reagents 2
5.1 General 2
5.2 Methanol, ... 3
5.3 Hydrochloric acid, ... 3
5.4 n-Hexane, ... 3
5.5 Sulphuric acid, ... 3
5.6 Acetic anhydride, ... 3
5.7 Potassium carbonate solution, ... 3
5.8 Reference solutions (for ECD) 3
5.9 Internal standard solutions for ECD 3
5.10 Internal standard solutions for MS 4

6 Sampling and extraction 4

7 Procedure 4
7.1 Preparation 4
7.2 Solid phase concentration 4
7.3 Acetylation 5
7.4 Gas chromatographic analysis 5

8 Calibration 5
8.1 Calibration for electron capture detector, ECD 5
8.2 Calibration for mass spectrometer using 13C-labelled PCP 6

9 Calculation 6

10 Precision 7

11 Test report 7

Bibliography 8
