

DIN EN 795:2012-10 (E)

Personal fall protection equipment - Anchor devices

Contents		Page
Foreword		5
Introduction		6
1	Scope	7
2	Normative references	7
3	Terms and definitions	7
4	Requirements	14
4.1	General	14
4.2	Materials	14
4.2.1	Metal parts	14
4.2.2	Rope and webbing	14
4.2.3	Connectors	15
4.3	Design and ergonomics	15
4.4	Specific requirements	15
4.4.1	Type A anchor devices	15
4.4.2	Type B anchor devices	15
4.4.3	Type C anchor devices	15
4.4.4	Type D anchor devices	16
4.4.5	Type E anchor devices	16
4.5	Marking and information	17
5	Test methods	17
5.1	General	17
5.2	Test arrangement and apparatus	18
5.2.1	Test lanyard and determination of free fall distance	18
5.2.2	Dynamic strength and integrity test apparatus for types A, B, C and D anchor devices	19
5.2.3	Static strength test apparatus	19
5.2.4	Dynamic performance test apparatus for type E anchor devices	19
5.3	Type A anchor devices	20
5.3.1	General	20
5.3.2	Deformation	20
5.3.3	Dynamic strength and integrity	20
5.3.4	Static strength	21
5.4	Type B anchor devices	21
5.4.1	General	21
5.4.2	Deformation	21
5.4.3	Dynamic strength and integrity	21
5.4.4	Static strength	24
5.5	Type C anchor devices	26
5.5.1	General	26
5.5.2	Deformation	27
5.5.3	Dynamic strength and integrity	27
5.5.4	Static strength	31
5.6	Type D anchor devices	31
5.6.1	General	31
5.6.2	Deformation	31
5.6.3	Dynamic strength and integrity	31
5.6.4	Static strength	33

5.7	Type E anchor devices	33
5.7.1	Deformation	33
5.7.2	Dynamic performance	33
5.7.3	Post arrest suspension	34
5.7.4	Static strength	34
5.8	Corrosion resistance	34
6	Marking	35
7	Information supplied by the manufacturer	35
Annex A (informative) Information on installation documentation and periodic examination		37
A.1	Information on installation to be supplied by the manufacturer	37
A.2	Guidance on documentation to be supplied after an installation	37
A.3	Guidance on periodic examination procedure	40
Annex B (informative) Significant technical changes between this European Standard and the Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 89/686/EEC		43
Bibliography		44
Figures Figure 1 -- Examples of anchor systems that include an anchor device		8
Figure 2 -- Examples of anchor systems that are not covered by this European Standard		9
Figure 3 -- Example of a type A anchor device with a structural anchor		11
Figure 4 -- Example of a type A anchor device with a fixing element		11
Figure 5 -- Examples of type B anchor devices		12
Figure 6 -- Example of a type C anchor device		13
Figure 7 -- Example of a type D anchor device		13
Figure 8 -- Example of a type E anchor device		13
Figure 9 -- Bowline knot		18
Figure 10 -- Test lanyard for dynamic strength and integrity tests and dynamic performance tests .		19
Figure 11 -- Example of a dynamic performance test apparatus for type E anchor devices		20
Figure 12 -- Dynamic test for type B anchor devices with legs (e.g. a tripod) and an anchor point(s) not on a leg		23
Figure 13 -- Dynamic test for type B anchor devices with legs (e.g. a tripod) and an anchor point on a leg		24
Figure 14 -- Static strength test for type B anchor device with legs (e.g. a tripod) and a central anchor point		25
Figure 15 -- Static strength test for type B anchor device with legs (e.g. a tripod) and an anchor point on a leg		26
Figure 16 -- Example of a single-span type C anchor device test arrangement		
Figure 17 -- Example of a multi-span type C anchor device test arrangement without a corner		30
Figure 18 -- Example of a multi-span type C anchor device test arrangement with a corner		30

Figure 19 -- Example of a type D anchor device test arrangement including a cantilever	32
Figure 20 -- Example of a type D anchor device test arrangement including a rigid anchor line joint or junction and a corner anchor	33
Figure A.1 -- Example of an installation plan	39
Figure A.2 -- Example of periodic examination procedure	40
