

ISO 11999-1:2015-06 (E)

PPE for firefighters - Test methods and requirements for PPE used by firefighters who are at risk of exposure to high levels of heat and/or flame while fighting fires occurring in structures - Part 1: General

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Abbreviated terms and subscripts	10
4.1	Abbreviated terms	10
4.2	Subscripts	10
5	Design and performance requirements for PPE items and ensembles	11
5.1	Type 1 and Type 2 items of PPE	11
5.1.1	General	11
5.1.2	Combination of Type 1 or Type 2 items of PPE	11
5.2	Type 1 and Type 2 ensembles	11
5.3	Mixed ensemble	13
6	Marking	13
6.1	General	13
6.2	Label durability and legibility	13
6.2.1	Pretreatment by exposure to heat	13
6.2.2	Pretreatment by abrasion	13
6.3	Compliance marking requirements for an item of PPE	14
6.4	Additional marking for clothing	14
6.5	Additional marking for gloves	15
6.6	Additional marking for footwear	15
6.7	Additional marking for helmets	15
6.8	Additional marking for face and/or eye protection devices	16
6.9	Additional marking for hearing protection devices	16
6.10	Additional marking for fire hoods	16
6.11	Additional marking for breathing apparatus	16
6.12	Additional marking for compatibility	16
7	Manufacturer's instructions to be supplied with each item of PPE	17
7.1	17
7.2.1	Optional clothing test using an instrumented manikin	17
7.2.2	Optional drag rescue devices (DRD)	18
7.10	Additional information for whole ensembles	19
7.11	Additional information about compatibility	19
7.12	Availability	19
8	Information available upon request from the supplier of a combination of items of PPE or of an ensemble	19
Annex A (informative)	Information on risk assessment	21

Annex B (normative) Testing and classification of performance for items of PPE, for combinations of items of PPE, and for ensembles	31
