|---|--|-------------|
| Foreword .....  |  | iv          |
| Introduction .....  |  | v           |
| 1   | Scope .....                                      | 1           |
| 2   | Normative references .....                       | 1           |
| 3   | Terms and definitions .....                      | 1           |
| 4   | Principle .....                                  | 2           |
| 5   | Health and safety of test operators .....        | 3           |
| 6   | Fuel .....                                       | 3           |
| 7   | Apparatus .....                                  | 3           |
| 8   | Sampling and sample preparation .....            | 10          |
| 8.1   | Sampling .....                                   | 10          |
| 8.1.1   | Number of specimens .....                        | 10          |
| 8.1.2   | Specimen-holder pin location marks .....         | 10          |
| 8.1.3   | Test specimen size .....                         | 10          |
| 8.1.4   | Multilayer specimens (including trim) .....      | 11          |
| 8.1.5   | Seams .....                                      | 11          |
| 8.2   | Conditioning atmosphere of the test sample ..... | 11          |
| 9   | Procedure .....                                  | 11          |
| 9.1   | Installation of the test apparatus .....         | 11          |
| 9.1.1   | Test conditions .....                            | 11          |
| 9.1.2   | Procedure A -- Surface ignition .....            | 12          |
| 9.1.3   | Procedure B -- Bottom-edge ignition .....        | 12          |
| 9.1.4   | Detection of flaming debris .....                | 13          |
| 9.2   | Test procedure .....                             | 13          |
| 9.2.1   | Procedure A -- Surface ignition .....            | 13          |
| 9.2.2   | Procedure B -- Bottom-edge ignition .....        | 14          |
| 10  | Test report .....                                | 14          |
| Annex A (normative) Description and construction of the burner .....        |  | 16          |
| Annex B (informative) Laboratory techniques .....                           |  | 17          |
| Annex C (normative) Measurement of damaged/char length .....                |  | 18          |
| Annex D (informative) Precision and results of interlaboratory trials ..... |  | 19          |
| Bibliography .....  |  | 21          |
