Foreword .....	v
Introduction .....	vi
1 Scope .....	1
2 Normative references .....	1
3 Terms and definitions .....	1
4 Terms and vocabulary of clothing .....	1
4.1 General terms and definitions of textile and clothing .....	1
4.2 Terms and definitions of body dimensions and ergonomics .....	3
4.3 Terms and definitions of components, materials, finishing .....	10
4.4 Terms and definitions of design and construction .....	14
4.5 Terms and definitions of product types .....	15
4.6 Terms and definitions of test methods, attributes, ageing .....	16
5 Terms and vocabulary of protective clothing .....	19
5.1 General terms and definitions of protective clothing .....	19
5.2 Terms and definitions of product types .....	20
5.3 Terms and definitions of components and materials .....	21
5.4 Terms and definitions of risks and hazards .....	21
5.5 Terms and definitions of test methods .....	22
6 Terms and vocabulary of protection against heat and flame hazards .....	22
6.1 General terms and definitions of protection against heat and flame hazards .....	22
6.2 Terms and definitions of product types .....	22
6.3 Terms and definitions of components and materials .....	23
6.4 Terms and definitions of risks and hazards .....	23
6.5 Terms and definitions of test methods .....	25
7 Terms and vocabulary of protection against chemical hazards .....	29
7.1 General terms and definitions of protection against chemical hazards .....	29
7.2 Terms and definitions of product types .....	29
7.3 Terms and definitions of components and materials .....	30
7.4 Terms and definitions of risks and hazards .....	30
7.5 Terms and definitions of test methods .....	31
8 Terms and vocabulary of protection against foul weather, wind and cold hazards .....	34
8.1 General terms and definitions of protective clothing .....	34
8.2 Terms and definitions of product types .....	34
8.3 Terms and definitions of components and materials .....	34
8.4 Terms and definitions of risks and hazards .....	34
8.5 Terms and definitions of test methods .....	34
9 Terms and vocabulary of protection against mechanical hazards .....	34

9.1	General terms and definitions of protection against mechanical hazards .....	34
9.2	Terms and definitions of product types .....	35
9.3	Terms and definitions of components and materials .....	36
9.4	Terms and definitions of risks and hazards .....	36
9.5	Terms and definitions of test methods .....	37
10	Terms and vocabulary of protection against infective agent hazards .....	41
10.1	General terms and definitions of protection against infective agent hazards .....	41
10.2	Terms and definitions of product types .....	41
10.3	Terms and definitions of components and materials .....	41
10.4	Terms and definitions of risks and hazards .....	41
10.5	Terms and definitions of test methods .....	41
11	Terms and vocabulary of diving protective clothing .....	42
11.1	General terms and definitions of diving protective clothing .....	42
11.2	Terms and definitions of product types .....	43
11.3	Terms and definitions of components and materials .....	44
11.4	Terms and definitions of risks and hazards .....	45
11.5	Terms and definitions of test methods .....	45
12	Terms and vocabulary of protection against hazards due to lack of visibility .....	45
12.1	General terms and definitions of protection against hazards due to lack of visibility .....	45
12.2	Terms and definitions of product types .....	46
12.3	Terms and definitions of components and materials .....	46
12.4	Terms and definitions of risks and hazards .....	46
12.5	Terms and definitions of test methods .....	46
13	Terms and vocabulary of protection against electrostatic hazards .....	46
13.1	General terms and definition of protection against electrostatic hazards .....	46
13.2	Terms and definitions of product types .....	47
13.3	Terms and definitions of components and materials .....	47
13.4	Terms and definitions of risks and hazards .....	47
13.5	Terms and definitions of test methods .....	47
14	Terms and vocabulary of protection against electrical arc hazards .....	48
14.1	General terms and definition of protection against electrical arc hazards .....	48
14.2	Terms and definitions of product types .....	49
14.3	Terms and definitions of components and materials .....	49
14.4	Terms and definitions of risks and hazards .....	50
14.5	Terms and definitions of test methods .....	50
15	Terms and vocabulary of Selection, Use, Care and Maintenance (SUCAM) .....	50
16	Terms and vocabulary of electronics .....	51
Annex A (informative)	Index of terms numbers with the corresponding French and German translations .....	54
Bibliography	.....	67
Index	.....	69
