Foreword	v
Introduction	vi
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Terms and vocabulary of clothing	1
4.1 General terms and definitions of textile and clothing	1
4.2 Terms and definitions of body dimensions and ergonomics	3
4.3 Terms and definitions of components, materials, finishing	10
4.4 Terms and definitions of design and construction	14
4.5 Terms and definitions of product types	15
4.6 Terms and definitions of test methods, attributes, ageing	16
5 Terms and vocabulary of protective clothing	19
5.1 General terms and definitions of protective clothing	19
5.2 Terms and definitions of product types	20
5.3 Terms and definitions of components and materials	21
5.4 Terms and definitions of risks and hazards	21
5.5 Terms and definitions of test methods	22
6 Terms and vocabulary of protection against heat and flame hazards	22
6.1 General terms and definitions of protection against heat and flame hazards	22
6.2 Terms and definitions of product types	22
6.3 Terms and definitions of components and materials	23
6.4 Terms and definitions of risks and hazards	23
6.5 Terms and definitions of test methods	25
7 Terms and vocabulary of protection against chemical hazards	29
7.1 General terms and definitions of protection against chemical hazards	29
7.2 Terms and definitions of product types	29
7.3 Terms and definitions of components and materials	30
7.4 Terms and definitions of risks and hazards	30
7.5 Terms and definitions of test methods	31
8 Terms and vocabulary of protection against foul weather, wind and cold hazards	34
8.1 General terms and definitions of protective clothing	34
8.2 Terms and definitions of product types	34
8.3 Terms and definitions of components and materials	34
8.4 Terms and definitions of risks and hazards	34
8.5 Terms and definitions of test methods	34
9 Terms and vocabulary of protection against mechanical hazards	34

9.1	General terms and definitions of protection against mechanical hazards	34
9.2	Terms and definitions of product types	35
9.3	Terms and definitions of components and materials	36
9.4	Terms and definitions of risks and hazards	36
9.5	Terms and definitions of test methods	37
10	Terms and vocabulary of protection against infective agent hazards	41
10.1	General terms and definitions of protection against infective agent hazards	41
10.2	Terms and definitions of product types	41
10.3	Terms and definitions of components and materials	41
10.4	Terms and definitions of risks and hazards	41
10.5	Terms and definitions of test methods	41
11	Terms and vocabulary of diving protective clothing	42
11.1	General terms and definitions of diving protective clothing	42
11.2	Terms and definitions of product types	43
11.3	Terms and definitions of components and materials	44
11.4	Terms and definitions of risks and hazards	45
11.5	Terms and definitions of test methods	45
12	Terms and vocabulary of protection against hazards due to lack of visibility	45
12.1	General terms and definitions of protection against hazards due to lack of visibility	45
12.2	Terms and definitions of product types	46
12.3	Terms and definitions of components and materials	46
12.4	Terms and definitions of risks and hazards	46
12.5	Terms and definitions of test methods	46
13	Terms and vocabulary of protection against electrostatic hazards	46
13.1	General terms and definition of protection against electrostatic hazards	46
13.2	Terms and definitions of product types	47
13.3	Terms and definitions of components and materials	47
13.4	Terms and definitions of risks and hazards	47
13.5	Terms and definitions of test methods	47
14	Terms and vocabulary of protection against electrical arc hazards	48
14.1	General terms and definition of protection against electrical arc hazards	48
14.2	Terms and definitions of product types	49
14.3	Terms and definitions of components and materials	49
14.4	Terms and definitions of risks and hazards	50
14.5	Terms and definitions of test methods	50
15	Terms and vocabulary of Selection, Use, Care and Maintenance (SUCAM)	50
16	Terms and vocabulary of electronics	51
Annex A (informative)	Index of terms numbers with the corresponding French and German translations	54
Bibliography	67
Index	69
