

# DIN EN 12841:2024-04 (E)

## Personal fall protection equipment - Rope access systems - Rope adjustment devices

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		5
1	Scope .....	6
2	Normative references .....	6
3	Terms and definitions .....	6
4	Requirements .....	9
4.1	General requirements for all Types .....	9
4.1.1	Anchor lines .....	9
4.1.2	Compatibility .....	9
4.1.3	Edge design .....	9
4.1.4	Corrosion resistance .....	9
4.1.5	Marking and information .....	9
4.2	Overview of the specific requirements for each type of rope adjustment devices .....	9
4.3	Specific requirements for Type A rope adjustment devices .....	10
4.3.1	Connecting elements .....	10
4.3.2	Free movement .....	10
4.3.3	Static strength .....	11
4.3.4	Dynamic performance .....	11
4.3.5	Dynamic strength and residual strength .....	11
4.4	Specific requirements for Type B rope adjustment devices .....	11
4.4.1	Free movement .....	11
4.4.2	Release prevention function .....	11
4.4.3	Minimum working performance .....	11
4.4.4	Dynamic strength and residual strength .....	12
4.5	Specific requirements for Type C rope adjustment devices .....	12
4.5.1	Hands-free locking element .....	12
4.5.2	Minimum working performance .....	12
4.5.3	Static strength .....	12
4.5.4	Dynamic strength and residual strength .....	12
4.5.5	Descent velocity and panic locking .....	12
4.5.6	Temperature rise .....	13
5	Test methods .....	13
5.1	Test apparatus .....	13
5.2	Conditioning and setup before testing .....	13
5.2.1	General conditioning .....	13
5.2.2	Conditioning to heat .....	13
5.2.3	Conditioning to wet .....	13
5.2.4	Conditioning to very cold .....	14
5.2.5	Conditioning to wet and cold .....	14
5.3	General tests .....	14
5.3.1	Test samples .....	14
5.3.2	Compatibility .....	14
5.3.3	Edge design .....	14
5.3.4	Corrosion resistance .....	15
5.4	Specific tests .....	15

5.4.1	Length of connecting elements .....	15
5.4.2	Movement test .....	15
5.4.3	Release prevention test for Type B rope adjustment devices .....	16
5.5	Static tests .....	17
5.5.1	Test samples .....	17
5.5.2	Minimum working performance test for Type B and Type C rope adjustment devices .....	17
5.5.3	Static strength test for Type A and Type C rope adjustment devices .....	18
5.6	Dynamic tests .....	19
5.6.1	Test samples .....	19
5.6.2	Dynamic performance for Type A rope adjustment devices .....	19
5.6.3	Dynamic strength and residual strength for Type A rope adjustment devices .....	20
5.6.4	Dynamic strength and residual strength for Type B and Type C rope adjustment devices .....	22
5.7	Descent test for Type C rope adjustment devices .....	25
5.7.1	General .....	25
5.7.2	Test samples .....	26
5.7.3	Test arrangement .....	26
5.7.4	Velocity, locking and temperature rise .....	26
6	Marking .....	27
7	Manufacturer's instructions and information .....	28
Annex A (informative) List of useful information .....		29
A.1	General .....	29
A.2	Maintenance of rope adjustment devices within the user's reach .....	29
A.3	Anticipation of emergency situations .....	29
A.4	Care when selecting anchor lines .....	29
Annex B (informative) Background and rationale about the changes between this Annex ZA (informative) Relationship between this European Standard and the essential requirements of Regulation 2016/425 aimed to be covered .....		38
Bibliography .....		40
