| 5.2.1                   | General .....   | 11          |
| 5.2.2                   | Visibility from all sides .....   | 11          |
| 5.3                     | Type B .....  | 12          |
| 5.3.1                   | General .....   | 12          |
| 5.3.2                   | Type B1 - Free hanging devices .....  | 12          |
| 5.3.3                   | Type B2 - Equipment for limbs .....   | 12          |
| 5.3.4                   | Type B3 - Equipment for the torso or the torso and limbs .....  | 12          |
| 5.4                     | Type AB .....   | 13          |
| 6                       | Material requirements .....   | 13          |
| 6.1                     | Requirements for non-fluorescent material, fluorescent material and combined performance material .....                 | 13          |
| 6.1.1                   | Colour performance requirements of new material .....   | 13          |
| 6.1.2                   | Colour after Xenon test .....   | 15          |
| 6.1.3                   | Colour fastness of fluorescent material and all non-fluorescent material layers after test exposure .....               | 15          |
| 6.2                     | Dimensional change of fluorescent material and non-fluorescent material .....   | 16          |
| 6.3                     | Photometric and physical performance requirements for the separate performance and combined performance materials ..... | 16          |
| 6.3.1                   | Retroreflective performance requirements of new material .....  | 16          |
| 6.3.2                   | Type B1 - Free hanging devices .....  | 17          |
| 6.3.3                   | Type B2, B3 and AB - removable or permanently applied materials or devices .....  | 17          |
| 6.4                     | Retroreflective performance requirements after test exposure .....  | 18          |
| 6.4.1                   | General .....   | 18          |
| 6.4.2                   | Separate performance material .....   | 19          |
| 6.4.3                   | Combined performance material .....   | 19          |
| 6.4.4                   | Orientation sensitive materials .....   | 19          |
| 7                       | Test methods .....  | 19          |
| 7.1                     | Sampling and conditioning .....   | 19          |
| 7.2                     | Determination of colour .....   | 19          |
| 7.3                     | Method of determination of retroreflective photometric performance .....  | 20          |
| 7.3.1                   | General .....   | 20          |
| 7.3.2                   | Type B1 devices .....   | 20          |
| 7.3.3                   | Type B2 and B3 and Type AB devices or garments .....  | 20          |
| 7.4                     | Test exposure of retroreflective material .....   | 20          |

|  |  |    |
|--|--|----|
| 7.4.1  | Abrasion .....                                 | 20 |
| 7.4.2  | Folding at cold temperatures .....             | 21 |
| 7.4.3  | Exposure to temperature variation .....        | 21 |
| 7.4.4  | Rainfall .....                                 | 21 |
| 7.4.5  | Free fall test .....                           | 21 |
| 7.4.6  | Influence of water (water immersion) .....     | 21 |
| 7.5  | Ageing .....                                   | 21 |
| 7.5.1  | General .....                                  | 21 |
| 7.5.2  | Washing .....                                  | 22 |
| 7.5.3  | Dry cleaning .....                             | 22 |
| 8  | Marking .....                                  | 22 |
| 9  | Information supplied by the manufacturer ..... | 23 |
| Annex A (informative) Examples of garments or devices according to types and classes .....   |  | 24 |
| Annex B (informative) Examples of different types of equipment .....   |  | 26 |
| Annex C (informative) Examples on how to determine visibility from all sides for Type A garments .....   |  | 27 |
| Annex D (informative) Possible designs for the placement of fluorescent material on garments .....   |  | 28 |
| Annex E (informative) Examples of Type B2 and Type B3 garment .....  |  | 29 |
| Annex ZA (informative) Relationship between this European Standard and the essential requirements of Regulation 2016/425 aimed to be covered ..... |  | 31 |
| Bibliography .....   |  | 32 |
