## Statistical methods in process management - Capability and performance - Part 4: Process capability estimates and performance measures

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
<b>1</b>	<b>Scope .....</b>	<b>1</b>
<b>2</b>	<b>Symbols and abbreviated terms .....</b>	<b>1</b>
2.1	Symbols .....	1
2.2	Abbreviated terms .....	3
<b>3</b>	<b>Basic concepts used for process capability and performance .....</b>	<b>3</b>
3.1	General .....	3
3.2	Location .....	3
3.3	Dispersion .....	3
3.3.1	Inherent dispersion .....	3
3.3.2	Total dispersion .....	3
3.3.3	Short-term dispersion .....	3
3.4	Mean square error (MSE) .....	4
3.5	Reference limits .....	4
3.6	Reference interval (also known as process spread) .....	4
<b>4</b>	<b>Capability .....</b>	<b>4</b>
4.1	General .....	4
4.2	Process capability .....	6
4.2.1	Normal distribution .....	6
4.2.2	Non-normal distribution .....	7
4.3	Process location .....	7
4.4	Process capability indices for measured data .....	8
4.4.1	General .....	8
4.4.2	Cp index (for the normal distribution) .....	9
4.4.3	Cpk index (for the normal distribution) .....	10
4.4.4	Cpk index for unilateral tolerances .....	10
4.5	Process capability indices for measured data (non-normal) .....	10
4.5.1	General .....	10
4.5.2	Probability paper method .....	11
4.5.3	Pearson curves method .....	11
4.5.4	Distribution identification method .....	12
4.6	Alternative method for describing and calculating process capability estimates .....	12
4.7	Other capability measures for continuous data .....	13
4.7.1	Process capability fraction (PCF) .....	13
4.7.2	Indices when the specification limit is one-sided or no specification limit is given .....	13
4.8	Assessment of proportion out-of-specification (normal distribution) .....	15
<b>5</b>	<b>Performance .....</b>	<b>16</b>
5.1	General .....	16
5.2	Process performance indices for measured data (normal distribution) .....	16
5.2.1	Pp index .....	16
5.2.2	Ppk index .....	17
5.3	Process performance indices for measured data (non-normal distribution) .....	17
5.3.1	General .....	17
5.3.2	Probability paper method .....	17

5.3.3	Pearson curves method .....	18
5.3.4	Distribution identification method .....	18
5.4	Other performance indices for measured data .....	18
5.5	Assessment of proportion out-of-specification for a normal distribution of the total distribution .....	18
6	Reporting process capability and performance indices .....	19
	Annex A (informative) Estimating standard deviations .....	21
	Annex B (informative) Estimating capability and performance measures using Pearson curves -- Procedure and example .....	23
	Annex C (informative) Distribution identification .....	37
	Annex D (informative) Confidence intervals .....	42
	Bibliography .....	44
