Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of Directive 2013/53/EU aimed to be covered		5
Foreword		7
1	Scope	8
2	Terms and definitions	8
3	Symbols, designations and units	9
4	Measurements	10
4.1	General	10
4.2	Longitudinal	11
4.2.1	General	11
4.2.2	Maximum length, L_{max}	11
4.2.3	Length of the hull, LH	11
4.2.4	Waterline length, LWL	14
4.3	Athwartship	15
4.3.1	General	15
4.3.2	Maximum beam, B_{max}	15
4.3.3	Beam of hull, BH	15
4.3.4	Beam, waterline, BWL	15
4.3.5	Maximum beam, waterline, BWL_{max}	15
4.3.6	Beam between hull centers, BCB	15
4.4	Vertical	16
4.4.1	Maximum depth, D_{max}	16
4.4.2	Midship depth, $DLWL/2$	16
4.4.3	Freeboard, F	17
4.4.4	Draught, T	17
4.4.5	Draught, air, H_a	17
4.4.6	Headroom	18
4.5	Other data	18
4.5.1	Deadrise angle,	18
4.5.2	Reference sail area, AS	19
4.5.3	Standard sail area, AS	19
4.5.4	Windage area, A_{lv}	19
4.5.5	Volume of the craft, V	19
5	Masses	20
5.1	Mass, net shipping, mN	20
5.2	Mass, gross shipping, mG	20
5.3	Mass, light craft, mLC	21
5.3.1	Items of equipment included in mLC	21
5.3.2	Items of equipment and other items not included in mLC	22
5.4	Performance test mass, mP	22
5.5	Mass of the craft when towed on a trailer, mT	23
5.5.1	General	23
5.5.2	Items of equipment included in mT	23
5.5.3	Items of equipment not included in mT	25

5.5.4	Exclusions, inclusions	25
5.6	Maximum load, mML	25
6	Loading conditions	26
6.1	Test condition	26
6.2	Ready-for-use condition	26
6.3	Fully loaded ready-for-use condition	26
6.4	Empty craft condition	26
6.5	Light craft condition	27
6.6	Minimum operating condition	28
6.7	Loaded arrival condition	28
6.8	Maximum load condition	28
7	Tolerances	28
7.1	Published data	28
7.2	Preliminary specification	29
7.3	Reference lengths	29
	Bibliography	30
