ISO 11711-1:2019 (E)

Ships and marine technology — Aquatic nuisance species — Part 1: Ballast water discharge sample port

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Sample port design

- 4.1 Colour
- 4.2 Labelling
- 4.3 Ancillary piping design and installation
- 4.4 Materials
- 4.5 Welding
- 4.6 Configuration of the sample port assembly
- 4.6.1 General
- 4.6.2 Sample port
- 4.6.3 Return port
- 4.7 Location of the sample port and return port
- 4.7.1 General
- 4.7.2 Location of the sample port based on hydrodynamic conditions
- 4.7.3 Location of the sample and return ports based on the availability of space
- 4.8 Safety considerations

Annex A (informative) Installation of sample ports for ships with ballast discharge pipes <DN100

Annex B (informative) Installation of a sample port for ballast water samples from an uptake operation
