

ISO 15370:2021 (E)

Ships and marine technology — Low-location lighting (LLL) on passenger ships — Arrangement

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Performance requirements
4.1	General
4.2	Phosphorescent systems
4.3	Electrically powered systems
5	Technical product documentation
6	Installation on board
6.1	General
6.2	Corridors
6.3	Doors
6.4	Stairways
6.5	Signs and escape route signs
7	Approval of the installation
8	Maintenance
Annex A	(normative) Testing of phosphorescent low-location lighting materials
A.1	Purpose
A.2	Testing to ISO 16069
A.2.1	General
A.2.2	Subclause A.5.2
A.2.3	Subclause A.6.4.2
A.2.4	Subclause A.9.2
Annex B	(normative) Assessment of installations on board
B.1	Purpose
B.2	Luminance measurements
B.3	Testing to ISO 16069
Annex C	(informative) Measurement record for phosphorescent materials
Annex D	(normative) Minimum width and required luminance
Annex E	(normative) Testing of electrically powered low-location lighting systems
E.1	Purpose
E.2	Test specimens
E.3	Ambient conditions
E.4	Luminance instrumentation
E.5	Measurement conditions
E.6	Luminous measurements
E.6.1	General

- E.6.2 Luminance of planar light lines
- E.6.3 Luminous intensity of point light source lines
- E.7 Test report

Annex F (normative) Corridor recess and stairway arrangement diagrams

Annex G (informative) LLL installation and arrangement examples
