

ISO 22547:2021 (E)

Ships and marine technology — Performance test procedures for high-pressure pumps in LNG fuel gas supply systems (FGSS) for ships

Contents

| | |
|---------|--|
| | Foreword |
| 1 | Scope |
| 2 | Normative references |
| 3 | Terms and definitions |
| 4 | Test arrangement |
| 4.1 | Test preparation |
| 4.2 | Test fluid |
| 4.3 | Test parameters |
| 4.3.1 | Total pressure |
| 4.3.2 | Total efficiency |
| 5 | Test procedure |
| 5.1 | Precooling and starting |
| 5.2 | Performance test |
| 6 | Additional tests |
| 6.1 | Unit production test |
| 6.2 | Type test |
| 6.3 | Endurance test |
| 6.4 | Overhaul inspection |
| 6.5 | Vibration and noise |
| 7 | Test report |
| Annex A | (informative) Test report of high-pressure pumps in LNG FGSS - Example |
