Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1
3.1 General terms 1
3.2 Terms relating to waste 3

4 Requirements 6
4.1 General 6
4.2 Classification of waste 7
4.3 Collection and segregation of waste 8
4.3.1 General 8
4.3.2 On board collection containers 8
4.4 Storage 8
4.4.1 General 8
4.4.2 Storage containers 8
4.5 On board processing of waste 10
4.6 Offloading waste 11

5 Waste management 11
5.1 Waste management plans 11
5.2 Waste volume 12
5.3 Waste management techniques 12
5.3.1 General 12
5.3.2 Discharge into the waterways 12
5.4 Facilities to offload waste 12
5.5 Documentation 12
5.6 Waste minimization 13
5.7 Waste management audits 14

Annex A (informative) Examples of waste streams generated from vessels during operations 15

Annex B (informative) Example of a waste data sheet for use in waste auditing 17

Annex C (informative) Example of a used-oil log 18

Annex D (informative) Examples of oil and garbage record books as prescribed by the MARPOL Convention 20

Annex E (informative) Examples of unloading attestations 26

Annex F (informative) Examples of colour codes for waste categories 33
