Marine technology - Toolings for submersibles - Technology requirements

Contents

Page

Foreword.....	iv
Introduction.....	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Tooling classification	2
5 General requirements	2
5.1 Installation.....	2
5.2 Interface.....	2
5.2.1 Installation position.....	2
5.2.2 Electrical interface.....	2
5.2.3 Communication interface.....	3
5.2.4 Hydraulic interface.....	3
5.3 Dimensional.....	3
5.4 Function.....	4
5.4.1 General manipulator.....	4
5.4.2 Manipulator-held toolings.....	4
5.4.3 Portable operating toolings.....	5
5.4.4 Tooling deployment unit.....	5
6 Design requirements	6
6.1 Design for pressure boundary.....	6
6.1.1 Design for internal external pressure.....	6
6.1.2 Oil-filled compensation structure.....	6
6.2 Seal design.....	7
6.3 Tool jettisoning functions.....	7
7 General testing	7
7.1 Hydrostatic pressure test.....	7
7.1.1 Test content.....	7
7.1.2 Recommended test procedure.....	7
7.1.3 Functional test.....	8
7.1.4 Result evaluation.....	9
7.2 Equipment testing.....	9
7.3 Recommended operational test.....	9
