ISO 23817:2026-08 (E)

Ships and marine technology - Ballast water management systems (BWMS) - Procedures for commissioning and testing BWMS using electrolytic methods

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Safety during commissioning 5
4.1 General 5
4.2 Safety training 6
4.2.1 General 6
4.2.2 Content of safety training 6
4.3 Personal protective equipment (PPE) 6
4.4 Ventilation 8
4.5 Fire-fighting and flooding handling 8
4.5.1 General 8
4.5.2 Firefighting 9
4.5.3 Flooding 9

5 Process of commissioning 10

6 Installation inspection 11
6.1 General 11
6.2 Tools for inspection 12
6.3 Component installation inspection 12
6.3.1 Major component location 12
6.3.2 Cooling arrangement 13
6.3.3 G2 sampling port location 13
6.4 Piping arrangement inspection 13
6.4.1 Piping route inspection 13
6.4.2 Piping material check 14
6.4.3 Air vent piping arrangement 14
6.5 Electrical wiring inspection 14
6.6 Component function verification 15
6.7 Deficiency handling 16

7 Function test 16
7.1 General 16
7.2 Preparation prior to function test 16
7.3 Alarm test 17
7.4 Bypass mode test 18
7.5 Emergency shutdown test 18
7.6 Independent shutdown test 19
7.7 Remote-control test 19
7.8 Ballasting treatment test 19
7.9 System design limitations (SDL) test 20
7.9.1 General 20
7.9.2 Low salinity test 20

7.9.3 Low temperature test 20
7.10 De-ballasting treatment test 20
7.11 Stripping treatment test 21
7.12 Test for multiple BWMS 21
7.13 Handling of ballasted water from testing 21

8 Commissioning test 21
8.1 General 21
8.2 Preparation prior to the commissioning testing 22
8.2.1 Preparation of ballast tank 22

8.2.2 Preparation of BWMS and associated shipboard systems 22
8.2.3 Responsibility of involved parties 22
8.2.4 Qualification of ballast water testing organization 23
8.3 Long cycle operation 24
8.3.1 General 24
8.3.2 Ballasting operation test 24
8.3.3 De-ballasting operation test 24
8.4 Collection of samples 25
8.5 Analysis of collected sample 25
8.5.1 General 25
8.5.2 Analysis method 25
8.6 Extracting BWMS operation logs 25
8.7 Reporting of biological efficacy verification 26

9 Documentation of commissioning 26
9.1 Confirmation record of commissioning procedures 26
9.2 Biological efficacy report 27
9.3 Training record 27

Annex A (informative)Exampleofdeficiencytracking 28

Annex B (informative) Examples of records for performance evaluation of BWMS using electrolytic methods 29

Annex C (informative) Examples of records for collection and analysis of samples 33

Annex D (informative) Training of crew 35

Bibliography 36
