## Ships and marine technology - Fire resistance of metallic pipe components with resilient and elastomeric seals - Test methods

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Designation .....	1
4	Test pieces and preparation .....	2
5	Number of test pieces .....	2
6	Test bench .....	2
7	Test performance .....	2
7.1	Installation of test pieces .....	2
7.2	Preparation .....	3
7.3	Measured values and measuring points .....	3
7.4	Commencement of test .....	4
7.5	Test temperatures .....	4
7.6	Test pressures .....	4
7.7	Test duration .....	4
7.8	Heat flux .....	4
8	Assessment .....	4
9	Test certificate .....	5
Annex A (normative)	Test certificate .....	6
Annex B (informative)	Evidence of suitability of other pipeline components via representative nominal bores .....	7
Annex C (informative)	Pipeline components that can be fire-test qualified using this International Standard .....	8
Bibliography .....		9
