

ISO 15736:2006-01 (E)

Ships and marine technology - Pyrotechnic life-saving appliances - Testing, inspection and marking of production units

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative reference(s)	1
3	Term(s) and definition(s)	1
4	General requirements	2
4.1	Manufacturing standards	2
4.2	Visual appearance and craftsmanship	2
4.3	Markings	2
4.4	Documentation	3
5	Performance requirements	3
5.1	Rocket parachute flare	3
5.2	Hand flare	4
5.3	Buoyant smoke signal	4
5.4	Lifebuoy self-activating smoke signal	4
5.5	Line-throwing appliances	5
6	Test procedures	5
6.1	Luminous intensity measurement	5
6.2	Thrust versus time measurement	5
6.3	Altitude measurement	6
6.4	Temperature cycle test	6
6.5	Water immersion test	6
6.6	Cold temperature test	7
6.7	Hot temperature test	7
6.8	Smoke density measurement	7
6.9	Smoke colour comparison	8
6.10	Burn time measurement	8
6.11	Line throwing appliance function test	8
Annex A (informative)	Production testing and inspection procedures	9
