

DIN SPEC 15587:2019-04 (E)

Recommendations for digitization of cinematographic film

Contents	Page
Foreword	4
1 Scope	5
2 Normative references	5
3 Terms and definitions.....	7
4 Principles of handling cinematographic film material.....	12
4.1 General	12
4.2 Marking	12
4.3 Air conditioning/adjustment	12
4.4 Transport.....	13
4.5 Intermediate storage.....	14
4.6 Handling.....	14
4.6.1 General	14
4.6.2 Health hazards.....	14
4.6.3 Danger to the film material.....	16
4.6.4 Danger to film technology	16
5 Description of the digitization workflow.....	16
5.1 Principles.....	16
5.1.1 Logging the workflow.....	16
5.1.2 Preservation of authenticity.....	17
5.2 Search for existing film material.....	17
5.3 Diagnosis of film materials	18
5.3.1 Indexing	18
5.3.2 Technical diagnosis.....	18
5.4 Preparatory technical work on film materials	19
5.4.1 Repairs.....	19
5.4.2 Packaging.....	21
5.4.3 Conditioning.....	21
5.4.4 Cleaning technologies	21
5.5 Digitization — RAW scan	23
5.5.1 RAW scan image	23
5.5.2 RAW sampling /scan sound	31
6 Further processing of digitized materials	35
6.1 General	35
6.2 Processing and testing conditions for AV digitized materials	36
6.2.1 Processing and testing conditions for digitized images.....	36
6.2.2 Processing and testing conditions for digitized sounds.....	36
6.3 Production of a processing package (P-P).....	36
6.3.1 General	36
6.3.2 Production of an image processing package	37
6.3.3 Production of the sound processing package.....	39
6.4 Production of a distribution package (D-P).....	39
6.4.1 General	39
6.4.2 Production of an image distribution package.....	39
6.4.3 Production of a sound distribution package	40

6.4.4	Creating foreign language subtitles.....	40
6.4.5	Creation of elements for barrier-free access.....	40
6.5	Production of a deliverable package (DA-P)	40
6.5.1	General	40
6.5.2	Production of an image deliverable package	40
6.5.3	Production of a sound deliverable package.....	41
6.5.4	Creating replay and packing lists	41
7	Capturing all relevant metadata and use of metadata standards.....	41
Annex A (informative)	Technical findings	42
A.1	Sample format description	42
A.2	Sample status description	43
Annex B (informative)	Digitization and further processing stages of the digitized material (without compression options).....	44
Annex C (informative)	Digitization and further processing stages of the digitized material with compression options	45
Bibliography	46
