ISO 23218-1:2022-06 (E)

Industrial automation systems and integration - Numerical control systems for machine tools - Part 1: Requirements for numerical control systems

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 2

4 Abbreviated terms 4

5 Technical requirements 5
5.1 NC system functional requirements 5
5.1.1 Coordinate system and motion direction 5
5.1.2 Programming languages 5
5.1.3 Control function of the NC system 5
5.2 Interface signals of NC systems 5
5.2.1 Analogue interface signal 5
5.2.2 Digital interface signal 5
5.2.3 Fieldbus interface 6
5.3 Environmental requirements of NC systems 6
5.3.1 General 6
5.3.2 Temperature, humidity and atmospheric pressure environmental adaptability requirements 6
5.3.3 Mechanical environment adaptability 6
5.4 EMC immunity requirements of NC systems 7
5.4.1 EMC basic requirements for NC systems 7
5.4.2 Criteria of EMC immunity 7
5.4.3 EMC basic immunity performance requirements for NC systems 7
5.5 Protection and safety requirements of NC systems 9
5.6 Document requirements for NC system 9
5.6.1 Technical documentation 9
5.6.2 Guarantee file 9
5.6.3 Packaging documentation 9
5.6.4 Nameplate 9

6 Test method 10
6.1 Test conditions of NC systems 10
6.2 Function test of NC systems 10
6.3 Inspection for basic design requirements of NC systems 10
6.4 Environmental test of NC systems 10
6.4.1 Temperature and humidity adaptability test 10
6.4.2 Mechanical environmental adaptability test 11
6.4.3 Power environment adaptability test 12
6.5 EMC immunity test of NC systems 12
6.5.1 Electrostatic discharge (ESD) immunity test 12
6.5.2 Electrical fast transient/burst immunity test 13
6.5.3 Surge immunity test 14
6.5.4 Voltage dip and short interruption immunity test 14
6.5.5 Radio-frequency radiated immunity test 15

6.5.6 Radio-frequency field conduction immunity test 16
6.5.7 Power frequency magnetic field immunity test 16
6.6 Packing inspection 17
6.7 Integrity check for the accompanying product documents 17
6.8 Sequence of inspection and test 17

7 Inspection rules 17
7.1 General 17
7.2 Classification of inspection 17
7.3 Type inspection 18
7.4 Routine inspection 18
7.5 Special inspection 18

8 Packaging, storage and transportation 19
8.1 Packaging 19
8.2 Storage 19
8.3 Transportation 19

Annex A (normative) Product quality determination rules and inspection items 20
