## Machine tools safety - Machining centres, milling machines, transfer machines - Part 1: Safety requirements

---

| <b>Contents</b>   |  | <b>Page</b> |
|---|--|-------------|
| <b>Foreword</b> .....   |  | <b>v</b>    |
| <b>Introduction</b> .....   |  | <b>vi</b>   |
| <b>1 Scope</b> .....  |  | <b>1</b>    |
| <b>2 Normative references</b> .....   |  | <b>2</b>    |
| <b>3 Terms and definitions</b> .....  |  | <b>4</b>    |
| 3.1 General terms.....  |  | 4           |
| 3.2 Groups of machines.....   |  | 7           |
| 3.3 Parts of machines.....  |  | 8           |
| 3.4 Mode of operations.....   |  | 9           |
| 3.5 Maximum permissible spindle speed and feed rate.....                                |  | 11          |
| <b>4 List of significant hazards</b> .....  |  | <b>11</b>   |
| 4.1 General.....  |  | 11          |
| 4.2 Main hazard zones.....  |  | 11          |
| 4.3 Significant hazards and hazardous situations covered by this document.....          |  | 12          |
| <b>5 Safety requirements and/or protective/risk reduction measures</b> .....            |  | <b>16</b>   |
| 5.1 General requirements.....   |  | 16          |
| 5.1.1 General.....  |  | 16          |
| 5.1.2 Guards requirements.....  |  | 16          |
| 5.1.3 Requirement for gravity loaded axes.....  |  | 19          |
| 5.2 Specific requirements resulting from mechanical hazards.....                        |  | 19          |
| 5.2.1 Protective measures for Group 1 machines.....                                     |  | 19          |
| 5.2.2 Protective measures for Group 2 machines.....                                     |  | 19          |
| 5.2.3 Protective measures for Group 3 and Group 4 machines.....                         |  | 20          |
| 5.2.4 Mode of operation (MO).....   |  | 21          |
| 5.2.5 Optional or additional equipment for machines.....                                |  | 28          |
| 5.3 Specific requirements resulting from electrical hazards.....                        |  | 36          |
| 5.4 Specific requirements resulting from noise hazards.....                             |  | 37          |
| 5.5 Specific requirements resulting from radiation hazards.....                         |  | 37          |
| 5.6 Specific requirements resulting from material or substance hazards.....             |  | 37          |
| 5.6.1 Combustible coolants.....   |  | 37          |
| 5.6.2 Minimum quantity lubrication (MQL).....   |  | 39          |
| 5.6.3 Dry processing and combustible dust.....  |  | 39          |
| 5.6.4 Requirements for biological or microbiological hazards.....                       |  | 39          |
| 5.7 Specific requirements resulting from neglect of ergonomic principles hazards.....   |  | 40          |
| 5.8 Specific requirements resulting from failure or disorder of the control system..... |  | 41          |
| 5.8.1 General.....  |  | 41          |
| 5.8.2 Starting.....   |  | 41          |
| 5.8.3 Normal stop.....  |  | 42          |
| 5.8.4 Emergency stop.....   |  | 42          |
| 5.8.5 Manual reset function.....  |  | 42          |
| 5.8.6 Safety related parts of control system (SRP/CS).....                              |  | 43          |
| 5.8.7 Monitoring rotational speed limits and limits of linear and rotary movements..... |  | 44          |
| 5.8.8 Requirements for electromagnetic compatibility of electrical equipment.....       |  | 44          |
| 5.9 Specific requirements resulting from failure of any power supply.....               |  | 45          |
| 5.10 Specific requirements resulting from errors of fitting hazards.....                |  | 45          |
| 5.11 Specific requirements resulting from ejected fluids or parts.....                  |  | 45          |
| 5.11.1 General requirements.....  |  | 45          |
| 5.11.2 Ejection of parts — Guard strength.....  |  | 46          |
| 5.11.3 Power-operated workpiece and tool clamping.....                                  |  | 46          |
| 5.11.4 Additional requirements for Group 3 and Group 4 machines.....                    |  | 47          |
| 5.12 Specific requirements resulting from loss of stability hazards.....                |  | 47          |

|          |  |            |
|----------|--|------------|
| 5.13     | Requirements resulting from slips, trips, and fall of persons hazards.....   | 47         |
| 5.14     | Requirements resulting from accessibility for maintenance or troubleshooting on high parts of the machine.....   | 47         |
| 5.15     | Requirements for machinery with operator cabins and perimeter fencing.....   | 47         |
| 5.15.1   | General.....   | 47         |
| 5.15.2   | Overall concept for entering/leaving machinery.....  | 48         |
| 5.15.3   | Requirements for moveable/adjustable operator cabins and operation platforms.....  | 48         |
| 5.15.4   | Requirements for perimeter fencing.....  | 51         |
| 5.16     | Requirements for teleservice.....  | 51         |
| 5.17     | Verification of the safety requirements and/or protective measures.....  | 51         |
| <b>6</b> | <b>Information for use.....</b>  | <b>56</b>  |
| 6.1      | General.....   | 56         |
| 6.2      | Marking.....   | 56         |
| 6.2.1    | General markings.....  | 56         |
| 6.2.2    | Symbols of operating modes (MO) on machines.....   | 57         |
| 6.3      | Instruction for use.....   | 58         |
| 6.3.1    | General.....   | 58         |
| 6.3.2    | Tooling.....   | 60         |
| 6.3.3    | Workpiece clamping.....  | 61         |
| 6.3.4    | Machine functions accessible from the NC panel.....  | 61         |
| 6.3.5    | Restart.....   | 61         |
| 6.3.6    | Noise.....   | 61         |
| 6.3.7    | Residual risks to be addressed to the machinery user.....  | 62         |
| 6.3.8    | Installations instructions of machinery.....   | 63         |
| 6.3.9    | Cleaning instructions of machinery.....  | 63         |
| 6.3.10   | Machinery with operator cabins and/or perimeter fencing.....   | 63         |
| 6.3.11   | Machinery equipped with gravity loaded axes or slant axes.....   | 63         |
| 6.3.12   | Machinery equipped with MO 3.....  | 63         |
| 6.3.13   | Machinery that is telecontrol-ready.....   | 64         |
|          | <b>Annex A (normative) Impact test method for guards on machines.....</b>  | <b>65</b>  |
|          | <b>Annex B (informative) Equipment for impact test and examples of tested materials.....</b>   | <b>68</b>  |
|          | <b>Annex C (informative) Illustrative figures as examples of machines.....</b>   | <b>70</b>  |
|          | <b>Annex D (informative) Illustrative figures as examples of guards.....</b>   | <b>79</b>  |
|          | <b>Annex E (informative) Examples of the integration of exhaust and extinguishing systems when using combustible coolants or combustible dust.....</b>       | <b>86</b>  |
|          | <b>Annex F (informative) Provisions when using combustible coolants and combustible dust.....</b>  | <b>88</b>  |
|          | <b>Annex G (normative) Gravity-loaded axes.....</b>  | <b>91</b>  |
|          | <b>Annex H (informative) Examples: Concept for leaving/returning to a cabin (control station) at Group 3 and Group 4 machines.....</b>                       | <b>98</b>  |
|          | <b>Annex I (informative) Typical demand rates of safety functions for calculations according to <a href="#">Table 3</a> and <a href="#">Annex J</a>.....</b> | <b>100</b> |
|          | <b>Annex J (normative) Safety functions.....</b>   | <b>105</b> |
|          | <b>Annex K (normative) Noise emission measurement.....</b>   | <b>152</b> |
|          | <b>Bibliography.....</b>   | <b>154</b> |
