## Test code for machine tools - Part 5: Determination of the noise emission

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
1	Scope .....	1
2	Normative references .....	2
3	Terms and definitions .....	3
4	Measuring equipment .....	7
5	Installation and operation of the machine under test .....	7
6	Measurement procedure .....	9
7	Measurement uncertainty .....	9
8	Information to be recorded .....	10
9	Information to be reported in the test report .....	11
10	Declaration and verification of noise-emission values .....	12
11	Determination of the emission sound pressure levels at the work station(s) and at other specified positions .....	13
12	Method for the determination of sound power levels emitted by a machine tool .....	16
Annex A (normative) Microphone array on the measurement surface .....		20
Annex B (normative) Determination of the equivalent sound absorption area A .....		25
Annex C (informative) Guidelines for the detection of impulsive noise .....		27
Annex D (informative) Example of information to be recorded (see clause 8) .....		28
Annex E (informative) Example of noise-emission declarations for machine tools and equipment ...		30
Bibliography .....		31
