DIN ISO 230-5:2006-03 (E)

Test code for machine tools - Part 5: Determination of the noise emission (ISO 230-5:2000)

Contents

Page

Foreword 2

1 Scope 3

2 Normative references 4

3 Terms and definitions 5

4 Measuring equipment 9

5 Installation and operation of the machine under test 9

6 Measurement procedure 11

7 Measurement uncertainty 11

8 Information to be recorded 12

9 Information to be reported in the test report 13

10 Declaration and verification of noise-emission values 14

11 Determination of the emission sound pressure levels at the work station(s) and at other specified positions 15

12 Method for the determination of sound power levels emitted by a machine tool 18

Annex A (normative) Microphone array on the measurement surface 22

Annex B (normative) Determination of the equivalent sound absorption area A 27

Annex C (informative) Guidelines for the detection of impulsive noise 29

Annex D (informative) Example of information to be recorded (see clause 8) 30

Annex E (informative) Example of noise-emission declarations for machine tools and equipment 32
