ISO 4499-4:2016-02 (E)

Hardmetals - Metallographic determination of microstructure - Part 4: Characterisation of porosity, carbon defects and eta-p hase content

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Symbols and Units 1

5 Principle 2

6 Apparatus 2

7 Calibration of measurement apparatus 2

8 Preparation of test samples 2
8.1 Methods of preparation 2
8.2 Characterisation of porosity and carbon (graphite) defects 3
8.3 Characterisation of eta-phase 3

9 Procedure 3
9.1 General 3
9.2 Determination of porosity 3
9.3 Determination of carbon defects 4
9.4 Determination of the -phase (eta-phase) 7

10 Uncertainty of measurement 9

11 Test report 9

Bibliography 10
