

DIN 35225:2017-06 (E)

Welding for aerospace applications - Qualification testing of operators for powder bed based laser beam machines for additive manufacturing

Contents		Page
Foreword		3
1	Scope	4
2	Terms and definitions	4
3	Qualification	4
3.1	General	4
3.2	Core variables and scope of the qualification	4
3.3	Evidence of vision acuity	5
3.4	Theoretical training and testing	5
3.5	Practical training and testing	5
4	Qualification test certificate	6
5	Validity of testing	6
5.1	General	6
5.2	Period of validity	6
5.3	Requalification test	7
5.4	Supplementary test	7
Annex A (normative) Content of the theoretical test		8
Annex B (normative) Content of the practical test		9
Annex C (informative) Qualification test certificate for operators of powder bed-based laser beam machines for additive manufacturing of metallic parts		10
Bibliography		12
