

# ISO/ASTM 52911-1:2019-07 (E)

## Additive manufacturing - Design - Part 1: Laser-based powder bed fusion of metals

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | v           |
| Introduction ..... |  | vi          |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....   | 1           |
| 3                  | Terms and definitions .....  | 1           |
| 4                  | Symbols and abbreviated terms .....  | 2           |
| 4.1                | Symbols .....  | 2           |
| 4.2                | Abbreviated terms .....  | 3           |
| 5                  | Characteristics of powder bed fusion (PBF) processes .....                     | 3           |
| 5.1                | General .....  | 3           |
| 5.2                | Size of the parts .....  | 4           |
| 5.3                | Benefits to be considered in regard to the PBF process .....                   | 4           |
| 5.4                | Limitations to be considered in regard to the PBF process .....                | 5           |
| 5.5                | Economic and time efficiency .....   | 5           |
| 5.6                | Feature constraints (islands, overhang, stair-step effect) .....               | 6           |
| 5.6.1              | General .....  | 6           |
| 5.6.2              | Islands .....  | 6           |
| 5.6.3              | Overhang .....   | 6           |
| 5.6.4              | Stair-step effect .....  | 6           |
| 5.7                | Dimensional, form and positional accuracy .....                                | 7           |
| 5.8                | Data quality, resolution, representation .....                                 | 7           |
| 6                  | Design guidelines for laser-based powder bed fusion of metals (PBF-LB/M) ..... | 8           |
| 6.1                | General .....  | 8           |
| 6.1.1              | Selecting PBF-LB/M .....   | 8           |
| 6.1.2              | Design and test cycles .....   | 8           |
| 6.2                | Material and structural characteristics .....                                  | 8           |
| 6.3                | Support structures .....   | 9           |
| 6.4                | Build orientation, positioning and arrangement .....                           | 11          |
| 6.4.1              | General .....  | 11          |
| 6.4.2              | Powder spreading .....   | 11          |
| 6.4.3              | Support structures design .....  | 12          |
| 6.4.4              | Curl effect .....  | 13          |
| 6.5                | Anisotropy of the material characteristics .....                               | 14          |
| 6.6                | Surface roughness .....  | 14          |
| 6.7                | Post-production finishing .....  | 14          |
| 6.7.1              | General .....  | 14          |
| 6.7.2              | Surface finishing .....  | 15          |
| 6.7.3              | Removal of powder residue .....  | 15          |
| 6.7.4              | Removal of support structures .....  | 15          |
| 6.7.5              | Adjusting geometric tolerances .....   | 15          |
| 6.7.6              | Heat treatment .....   | 15          |
| 6.8                | Design considerations .....  | 16          |
| 6.8.1              | General .....  | 16          |
| 6.8.2              | Cavities .....   | 16          |
| 6.8.3              | Gaps .....   | 16          |

|   |  |           |
|---|--|-----------|
| <b>6.8.4</b>  | <b>Wall thicknesses</b> .....  | <b>16</b> |
| <b>6.8.5</b>  | <b>Holes and channels</b> .....  | <b>17</b> |
| <b>6.8.6</b>  | <b>Integrated markings</b> .....   | <b>17</b> |
| <b>6.9</b>  | <b>Example applications</b> .....  | <b>17</b> |
| <b>6.9.1</b>  | <b>General</b> .....   | <b>17</b> |
| <b>6.9.2</b>  | <b>Integral design (provided by CETIM -- Technical Centre for Mechanical Industry)</b> .....                       | <b>17</b> |
| <b>6.9.3</b>  | <b>Gear wheel design (provided by Fraunhofer IGCV)</b> .....   | <b>19</b> |
| <b>6.9.4</b>  | <b>Impossible crossing (provided by TNO -- The Netherlands Organisation for applied scientific research)</b> ..... | <b>20</b> |
| <b>Annex A (informative) Materials for PBF-LB/M</b> ..... |  | <b>22</b> |
| <b>Bibliography</b> .....                                 |  | <b>23</b> |
