

# ISO/ASTM 52907:2019-11 (E)

## Additive manufacturing - Feedstock materials - Methods to characterize metal powders

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 <b>Scope</b> .....		1
2 <b>Normative references</b> .....		1
3 <b>Terms and definitions</b> .....		2
4 <b>Technical specifications</b> .....		2
4.1 <b>General</b> .....		2
4.2 <b>Documentation and traceability</b> .....		2
4.3 <b>Sampling</b> .....		3
4.4 <b>Particle size distribution</b> .....		3
4.5 <b>Chemical composition</b> .....		5
4.6 <b>Characteristic densities</b> .....		6
4.7 <b>Morphology</b> .....		7
4.8 <b>Flowability</b> .....		7
4.9 <b>Contamination</b> .....		8
4.10 <b>Packaging, handling and storage</b> .....		8
4.10.1 <b>General</b> .....		8
4.10.2 <b>Packaging and handling</b> .....		8
4.10.3 <b>Storage</b> .....		9
Annex A (informative) <b>Examples of morphology</b> .....		10
Annex B (informative) <b>Example of certificate</b> .....		15
Bibliography .....		18
