DIN EN ISO/ASTM 52939:2024-04 (E)

Additive Manufacturing for construction - Qualification principles - Structural and infrastructure elements (ISO/ASTM 52939:2023)

Contents

Page

European foreword ... **3**

Foreword ... **4**

Introduction ... **5**

1 Scope ... **6**

2 Normative references ... **6**

3 Terms and definitions ... **6**

4 Constructability, assessment and review ... **8**
4.1 General ... 8
4.2 AC feasibility assessment ... 9
4.3 Validation plan ... 10

5 Infrastructure of the AC cell ... **10**

6 Qualification of the additive construction process ... **13**
6.1 Quality-relevant process steps within the additive construction process ... 13
6.2 Data preparation ... 14
6.3 Requirements for the material management ... 15
6.4 System related pre-processing ... 16
6.5 Built process guidance ... 17
6.6 System (default) post-processing ... 18
6.7 Process qualification ... 19

7 Quality assurance ... **20**
7.1 General ... 20
7.2 Personnel requirements ... 20
7.3 Documentation and tracing of the process steps ... 21
7.4 Quality controls ... 22
7.5 Delivery and logistics ... 23

Annex A (informative) **Supplementary information** ... **24**

Annex B (informative) **Examples for AC quality assurance** ... **33**

Annex C (informative) **Examples for quality assurance steps in built process guidance** ... **39**

Annex D (informative) **Examples for specific processes** ... **41**

Bibliography ... **43**
