| 4.2.4                        | Control systems.....   | 4           |
| 4.3                          | Protection against mechanical hazards.....                             | 7           |
| 4.3.1                        | Stability.....   | 7           |
| 4.3.2                        | Moving parts.....  | 7           |
| 4.3.3                        | Protection against slipping, tripping or falling.....                  | 8           |
| 4.4                          | Protection against electrical hazards.....                             | 8           |
| 4.4.1                        | General.....   | 8           |
| 4.4.2                        | Protection from electrostatic phenomena.....                           | 8           |
| 4.5                          | Protection against thermal hazards.....                                | 8           |
| 4.6                          | Vibration reduction measures.....                                      | 9           |
| 4.7                          | Noise reduction measures.....  | 9           |
| 4.8                          | Protection against laser radiation hazards.....                        | 10          |
| 4.9                          | Protection against pneumatic hazards.....                              | 10          |
| 4.10                         | Protection against hydraulic hazards.....                              | 10          |
| 4.11                         | Protection against hazards generated by materials and substances.....  | 10          |
| 4.11.1                       | Metal powder handling and recovery.....                                | 10          |
| 4.11.2                       | Particles during part removal from powder bed and post-processing..... | 11          |
| 4.11.3                       | Explosion and fire hazards.....  | 11          |
| 4.11.4                       | Hazards generated by inert gases.....                                  | 13          |
| 4.12                         | Protection against ergonomic hazards.....                              | 13          |
| 4.13                         | Hazards generated by overpressure.....                                 | 13          |
| 4.14                         | Hazards generated by failure of power supply.....                      | 13          |
| <b>5</b>                     | <b>Verification of safety requirements and/or measures.....</b>        | <b>14</b>   |
| 5.1                          | General.....   | 14          |
| 5.2                          | Verification based on noise emission values.....                       | 15          |
